Mr. Mark Hebbeler
North American Marketing Manager
ANEST IWATA USA, Inc.
9920 Windisch Road
West Chester OH 45069

Mr. Hebbeler,

The Maricopa County Air Quality Department (department) has completed review of the documents you provided requesting the use of the ANEST IWATA W400-LV spray gun. At this time, the department is conditionally approving the use of the ANEST IWATA W400-LV spray gun within the jurisdiction of the department. This approval is limited to the application of coatings subject to Maricopa County Air Pollution Control Regulation III, Rule 345, Vehicle and Mobile Equipment Coating.

This approval is subject to the following conditions:

1. ANEST IWATA must supply written notification with each ANEST IWATA W400-LV spray gun sold or distributed for use within the jurisdiction of the department that the spray gun is only approved for the application of coatings subject to Maricopa County Air Pollution Control Regulation III, Rule 345, Vehicle and Mobile Equipment Coating.

2. ANEST IWATA must supply written notification with each spray gun sold or distributed for use within the jurisdiction of the department that the maximum air pressure supplied to the spray gun must not exceed 20 psig.

3. ANEST IWATA must supply an ANEST IWATA AK-1B air flow control valve and pressure gauge (Item #8130) or AK-1R air flow regulator and pressure gauge (Item #8131) with each spray gun sold or distributed for use within the jurisdiction of the department. ANEST IWATA must supply written notification with each spray gun sold or distributed for use within the jurisdiction of the department that the pressure gauge must be attached to the spray gun and be in good working condition whenever the spray gun is in operation.

4. This approval is only valid if during actual operation the spray gun is equipped with a properly operating pressure gauge as described in condition number 3.

This approval is only valid for the ANEST IWATA W400-LV model as described in the above conditions. Any modification of the spray gun or pressure gauge design will invalidate this approval unless the modification is approved by the Maricopa County Air Quality Department.

If you have any questions regarding the conditional approval of the ANEST IWATA W400-LV model spray gun, please call me at 602.506.6443 or Cheri Dale at 602.506.3476.

Sincerely,

Douglas L. Erwin

for Lawrence Odle
Director
