Re: School Permitting Matrix

Environmental Services Department makes new School Permitting Matrix available online

The Maricopa County Environmental Services Department (MCESD) is excited to announce that a new tool was developed to provide permitting options at schools.

The School Permitting Matrix, though not all-inclusive, will serve to assist schools identify which permit will best serve their needs.

The Matrix, found at: <http://www.maricopa.gov/EnvSvc/EnvHealth/PlanReview/Forms.aspx>, includes information on Athletic training rooms, the Cafeteria, DECA stores, Culinary Arts, Concessions, Bake Sales, Daycares, and Outdoor Foodservice.

We encourage schools to contact their inspector or the Plan Review Program at (602) 506-6980 with any questions about permitting requirements.

For additional information, visit: esd.maricopa.gov or call (602) 506-6616.
