SOLICITATION ADDENDUM

CITY OF PHOENIX
Purchasing Division
251 W. Washington Street
8th Floor
Phoenix, AZ 85003
Phone: (602) 262-7181

Solicitation Number: 05-255(CG) Addendum #1 Page 1 of 2

Solicitation Due Date: May 20, 2005 2:00 P.M. Local Arizona Time

- **Question and Answers from Pre-Bid Meeting dated May 11, 2005**

- 1. Will the City determine base on pricing only or pricing per category? Only one supplier per category?** The evaluation process will look at the submittal items, discounts/multipliers, locations, payment terms, etc. in determining the awards. This is a multiple award IFB for each section.
- 2. How will you determine the volume of inventory?** We understand that you will not stock everything the city needs, but the city needs to be assured you will have items available as promised in order to meet the scheduling requirements. The city will need pick up items at the supplier's location or deliver to City locations.
- 3. How does this bid apply to Carpet and flooring?** It is for the materials only, no installation.
- 4. If we have multiple manufacturers with different discounts, how does the supplier apply this to the IFB?** The submittal will be for one manufacturer with each discount/multiplier. If the supplier is offering multiple manufacturers to one discount/multiplier, then you can attach the one sheet of manufacturers to the submittal sheet and apply it to one discount/multiplier. The city needs know what our discount/multiplier is being offered. If the supplier has a single catalog (either printed or electronically) with single discount/multiplier than they submit that as one.
- 5. Please provide samples of "Miscellaneous Building Supplies?"** This is hard to say, it is anything the supplier thinks that would be beneficial to the city that is not listed in the sections.
- 6. Does the city want a catalog and price list for every item submitted for this IFB? Or just price list? If there are online catalogs with price lists available can we reference it on the submittal section of the IFB instead of printed copy?** The city needs catalog with pricing for each section submitted. If the catalog has no pricing, then a price list is needed. Yes, the city will accept website, electronic media or printed copy of the catalog with price list. The supplier will need to indicate the electronic media received and/or website in their response on the IFB.
- 7. Custom fabricated items (like Light Poles): When the supplier has no set price list, how does the supplier bid on this?** The city will use the cost plus multiplier, overhead, markup percentage. When the supplier responses to the IFB, the multiplier will remain the constant throughout the contract. If the supplier has method or formula to indicating price, the supplier will need to submit the method or formula as their response to the IFB.
- 8. What e-procurement system does the City use?** The city at this time, does not have an e-procurement system. We are looking for electronic ordering with contracted pricing for the city's departments. The City's Purchasing/Finance Department will send out the summary of the agreement to the user departments with electronic links to the supplier's site for pricing, ordering and etc. The city will continue using CR (contract releases), DPO (department purchase orders) and Finance purchase orders as references for all packing slips, invoices, correspondences and etc.
- 9. What does the city expect with the fluctuations in the market (like steel, copper, lumber)? How will this apply to the 30 day notification on prices indicated on the IFB?** In the response to the IFB, the supplier will need to indicate this in their response and how they will work with city on obtaining prices. The 30 day notices applies to all catalogs, price lists (electronically and printed) changes. The city needs 30 days to review, update and notify the city's departments of the changes. If the supplier quotes 2005 catalog/price list and the new catalog/price list is available in January 2006, the supplier needs to notify the city by December 1, 2005.
- 10. How long before this IFB turns into an agreement with city and supplier?** The Purchasing/Finance Department will work as fast as possible to see that the IFB goes through the process. We are trying for a July 2005 start date for this IFB, but it can be subject to change depending on external and internal situations that may arise.
- 11. If everyone submits a response to the IFB, how many primary suppliers will issued for each category?** We will issue as many primary suppliers that meet the city's needs and requirement for each category.
- 12. In the lumber industry, there are no standard markups or prices. It is strictly supply and demand. How does the supplier apply this to the IFB?** The city will look at the cost plus multiplier (markups) as the standard. If the supplier has different sets of multipliers for type, grade and etc., the supplier will need to indicate multiplier (markup) on submittal section of the IFB.
