# Treatment Cost Estimator

**Estimate and plan your dental care costs.**

*You can estimate and plan for your dental care costs using Treatment Cost Estimator on myCIGNA.com. This user friendly web-based tool allows you to get dental estimates based on your specific plan design and geographic location.*

This tool is flexible, enabling you to get estimates at a procedure or treatment level. A treatment level estimate is usually more accurate because it represents a group of procedures used to treat or resolve a specific dental condition or disease. This gives you a better understanding of what you may pay when you visit the dentist.

## Benefits and Features

With the Treatment Cost Estimator tool, you can:

- **Estimate** the approximate cost of treatment prior to the actual treatment.
- **Compare** the financial impact if you visit an in-network vs. an out-of-network dentist.
- **Understand** how much money you are saving as a result of your plan membership.
- **Search** by key words, procedure codes, treatments, dental categories and much more.
- **Access** the dental glossary where you can find descriptions of key dental terms.
- **View** (DPPO and Dental Indemnity) your specific plan information such as annual maximums, annual deductibles, and much more.
- **View** (DHMO) your specific plan information such as Patient Charge Schedule, age and frequency limitations, and much more.

Our Treatment Cost Estimator makes it easier and more convenient for you and your family to learn about your oral health, dental benefits, and the costs associated with receiving dental care.
