Happy Holidays and Thank You for helping us reduce Pet Overpopulation in Maricopa County and Save Lives!

The “Big Fix” Spay/Neuter Voucher Program

**KEEP THIS PAGE FOR YOUR RECORDS
LOOK FOR YOUR VOUCHER POSTCARD IN THE MAIL**

Thank you for being concerned about your pet’s health and the pet overpopulation problem in Maricopa County.

Did you know that spaying and neutering:

- Keeps your pet healthy and helps prevent many diseases.
- Helps keep your pet at home since he/she will not have the urge to seek a mate.
- Helps ensure that no more unwanted animals are born.
- Helps with many behavior problems, such as spraying and marking territory.

Here is what you need to know about this program:

1. This program is designed for those in financial need of assistance.
2. With your application, you must enclose a money order payable to “MCACC Big Fix Program” (NO CASH or CHECKS) for the total co-pay amount (see page 3) of services you have chosen for your pet(s). There are no refunds unless: you are denied a voucher or the veterinarian cites medical reasons to deny surgery.
3. Once your application arrives in our department: Application will be processed, voucher will be issued and mailed to your listed address (approx. 2 weeks). If there is any reason for a delay you will be contacted by our Medical Outreach Coordinator.
4. Once you have received your pets voucher: You will have 90 days, from date of issue, to schedule a sterilization appointment with one of the contracted veterinarians identified on your voucher card. This expiration date is noted on the voucher card. No refunds will be made if the voucher expires.
5. Your Maricopa County Dog License will be mailed to your listed address, 30-45 days following date of surgery, if you have purchased one through our program. Do not send in any additional monies.
6. You must provide the Veterinarian with Photo ID and the voucher at the time of your pet’s surgery.

Dog eligibility: Must be at least 3 months or 3 pounds and **not more** than 7 years-old.

Cat eligibility: at least 2 pounds and **not more** than 7 years.

The veterinarian may choose to perform surgery on older animals, but they may need to perform additional medical procedures at the owner’s expense. If the animal is discovered to be pregnant during surgery, the surgery will continue and the fetuses will not survive. Pet owner will acknowledge that the medical procedures used are standard practice and routine for large volume, low-cost spay/neuter surgeries and that under normal circumstances there is no additional risk to the pet. However, there is always a small risk in any medical procedure.

This program is not intended for Feral Cats. Thank you.
