Section I

Summarizes the organizational information provided in the Cover Page.

The information will automatically populate when the Cover Page is completed

Section II

This section summarizes the budget information calculated in the submitted budget packet for this grant.

This form is required for all Ryan White Part A awards issued by Maricopa County Ryan White Part A Program

This form reports the summary line item amounts allocated as Administrative Costs, Direct Service Cost, and

total budget for the budget packet for this service award.

- 1 Direct Services allocations are for service that directly benefits Ryan White HIV clients such as staff, medicine

and drugs clinical supplies, etc.

- 2 Administrative costs relate to oversight and management of CARE Act funds: The Administrative Costs Column, including indirect cost, cannot exceed 10% of Direct Costs.

Administrative Costs, defined in Section 2604(f)(3) defines allowable "subcontractor administrative activities to include:

- a. Usual and recognized overhead, including establishing indirect rates for agencies. (HRSA has determined that rent, utilities and facility costs must be categorized as administrative expenses.)
- b. Management and oversight of specific programs funded under this title (including program coordination, clerical, financial and management staff not directly related to patient care; program evaluation; liability insurance; audits; computer hardware/software not directly related to patient care.)
- c. Other types of program support such as quality assurance, quality control, and related activities."

Other Examples include: salaries and expenses of executive officers, personnel administration, contracting, accounting, data recording, the costs of operating and maintaining facilities, and depreciation or use allowances on building and equipment.

Indirect Costs- Enter the indirect rate you are claiming (not to exceed 10% of direct costs).

** Indirect Cost - Providers claiming an indirect cost must submit their most current negotiated indirect Cost agreement with their budget. The indirect costs claimed from the Ryan White Part A Program may not exceed 10% of direct costs nor the amount that would be claimed using their agency's federally negotiated indirect cost rate and base, whichever is lower. Note: Only United States

Health and Human Services (HHS)

negotiated indirect rates will be accepted unless an exception is approved by the HHS.

3 Contract Balance - This cell calculates the amount of the contract less the projected costs. This number should equal 0.

The final determination for cost allocations between Administrative Costs and Direct Service Costs resides with Maricopa County Ryan White Part A Program

Personnel All staff paid in full or part from this Ryan White Part A grant are to be listed in the following chart.

EXHIBIT C**SCOPE OF WORK**

1.0 SCOPE OF WORK:

1.1 PURPOSE OF THE PROGRAM, AUTHORITY AND BACKGROUND:

The Ryan White Comprehensive AIDS Resources Emergency (CARE) Act was first enacted in 1990 and amended in 1996, 2000, 2006 and 2009. Currently, the Act was reauthorized in 2009 and is called the Ryan White HIV/AIDS Treatment Extension Act of 2009. The authority for this grant program is the Public Health Service Act Section 2603, 42 USC 300ff-13. The U.S. Department of Health and Human Services (DHHS) administers the Part A program through the Health Resources and Services Administration (HRSA), HIV/AIDS Bureau (HAB), Division of Service System (DSS). The entire CARE Act may be accessed at <http://hab.hrsa.gov/about/hab/legislation.html>.

Part A funds provide direct financial assistance to Eligible Metropolitan Area (EMAs) that have been the most severely affected by the HIV epidemic. Formula and supplemental funding components of the grant assist EMAs in developing or enhancing access to a comprehensive continuum of high quality, community-based care for low-income individuals and families with HIV disease. A comprehensive continuum of care includes primary medical care, HIV-related medications, mental health treatment, substance abuse treatment, oral health and case management services that assist PLWH/A (People Living with HIV/AIDS) in accessing treatment of HIV infection that is consistent with Public Health Service (PHS) Treatment Guidelines (current treatment guidelines are available at www.AIDS.info.nih.gov). Comprehensive HIV/AIDS care beyond these core services also includes access to other health services (e.g. home health care, nutritional, and rehabilitation service). In addition, this continuum of care may include supportive services that enable individuals to access and remain in primary medical care (e.g. outreach, transportation, and food services).

Part A supplemental funds have been awarded since fiscal year (FY) 1999 under the Minority AIDS Initiative (MAI) to improve the quality of care and health outcomes in communities of color disproportionately impacted by the HIV epidemic. Funds are to initiate, modify, or expand culturally and linguistically appropriate HIV care services for disproportionately impacted communities of color. Following Congressional intent, MAI funds must be used to expand or support new initiatives consistent with these goals.

MAI funds are subject to special conditions of award, and providers of services funded with MAI funds must document their use separately from other Part A funds. Progress reports must be provided in a beginning of year, Mid-Year Progress Report, and end-of-fiscal year Final Progress Report. This information reported is used to monitor:

1. Compliance with the MAI Condition of Award and related requirements;
2. Progress in meeting planned objectives;
3. Potential grantee technical assistance needs;
4. Type and quantity of services delivered and demographics of clients served, and;
5. Improvements in access and health outcomes being achieved through these services.

In preparing all responses to this Request for Proposal (RFP), applicant should consider how efforts at the local level are consistent with the Ryan White HIV/AIDS Treatment Extension Act of 2009 which emphasizes the use of funds to address the service needs of “individuals who know their HIV status and are not receiving primary medical care services and for informing individuals of and enabling the individuals to utilize the services, giving particular attention to eliminating disparities in access and services among affected subpopulations and historically underserved communities” Section 2602 (b)(4)(D)(i).

Additionally, applicants should consider the impact of the epidemic within the Phoenix EMA, which consists of Maricopa and Pinal counties. Several studies are available for applicants to review including:

1. 2006 Hispanic PLWH/A Needs Assessment
2. 2006 African American PLWH/A Needs Assessment
3. 2006 PLWH/A Out of Care Needs Assessment
4. 2006 Pinal County Needs Assessment
5. Phoenix EMA 2009-2012 Comprehensive Plan

All reports can be viewed at the Phoenix EMA Ryan White Planning Council's website at:

<http://www.ryanwhiteparta.com>

Moreover, in developing your application you should consider the HIV/AIDS Bureau (HAB) Guiding Principles indicated below that have significant implications for HIV/AIDS care services planning.

1. The HIV/AIDS epidemic is growing among traditionally underserved and hard-to-reach populations;
2. The quality of emerging HIV/AIDS therapies can make a difference in the lives of people living with HIV disease;
3. Changes in the economics of health care are affecting HIV/AIDS care network; and
4. Outcomes are a critical component of program performance.

All CARE Act funded projects in any service category must participate in the existing community-based continuum of care. This concept requires that services in a community must be organized to respond to the individual's or family's changing needs, in order to reduce fragmentation of care. For the Phoenix EMA to achieve this intent as required by HRSA guidance funded providers will be required to attend meetings sponsored by the Phoenix EMA Ryan White Planning Council and other management and technical assistance meetings deemed mandatory by Maricopa County Ryan White Part A Program.

Lastly, Part A funds must be used in a manner consistent with current and future HRSA policies as developed by the Division of Services Systems, HIV/AIDS Bureau. These policies can be reviewed on the HAB website at <http://hab.hrsa.gov>.

Additional Scope of Work Effective 10/15/2015

- 1.1.1 **The Ryan White Part A Program provide Medical Nutrition Services through a single contractor, Southwest Center for HIV/AIDS. The RWPA Planning Council has directed the program to provide supplemental food services to eligible RWPA clients who meet criteria which demonstrates the need for supplemental food. The Medical Nutrition provider will provide the screening and approval for these services. As part of this sole source procurement, the Medical Nutrition provider will maintain all documentation of the screening and approval for the supplemental food cards, and distribute the cards monthly to clients who meet monthly criteria to submit receipts and have their weight measured monthly to identify the health outcomes associated with the supplemental food. There are no other contracts who can provide these services currently contracted with RWPA Program, and allowing this sole source procurement will allow the RWPA Program to being these additional services in October 2015.**

Southwest Center for HIV/AIDS is the only RWPA contractor for Medical Nutrition Services, and there is not a need for additional providers of Medical Nutrition Services at this time. In the past, RWPA has provided supplemental food services through contracts with local food bank providers, but there is a large infrastructure cost associated with this method of distributing food services. Additionally, food box providers cannot provide the medical nutrition review of criteria which will be required to maintain eligibility for these services, such as

providing medical nutrition assessments every six months and monitoring weight to determine health outcomes of the supplemental food.

The estimated cost of providing this service will be \$120,000 for the current contract year (March 2015-February 2016). This will provide approximately 200 clients a \$50 food card monthly. The agency will be allowed a 10% administrative fee to administer this program. This administrative fee is the allowable administrative fee for all RWPA programs.

1.2 THE PHOENIX EMA RYAN WHITE PLANNING COUNCIL:

The Phoenix EMA Ryan White Planning Council (PC) is a planning body required under the Part A authorization. The Maricopa County Board of Supervisors serves as the Chief Elected Official for the Planning Council. Membership of the PC must be reflective of the epidemic within the Phoenix EMA and includes representatives from a variety of specific groups such as providers of housing and homeless shelters, HIV prevention services, representatives of individuals who were formerly Federal, State or local prisoners released from the custody of the penal system and had HIV disease on the date released, other mandated entities and interested advocates. The PC establishes service priorities, allocates Part A funds, develops a comprehensive plan, and addresses the efficiency of the grantee's administrative mechanism for rapidly contracting out funds to service providers.

The PC establishes Directives for service categories that are additional requirements that must be incorporated into the program plan along with applicable Standards of Care. These Directives are discussed under the service category description and should also guide prospective applicants in the development of goals objectives and a work plan.

1.3 ADMINISTRATIVE AGENT AND QUALITY MANAGEMENT:

Part A funds are awarded to the chief elected official (CEO). The CEO retains ultimate responsibility for submitting grant applications, ensuring that funds awarded are used appropriately, and complying with reporting or other requirements. Most CEOs delegate day-to-day responsibility for administering their Part A award to a health related department within the jurisdiction.

For the purposes of this section, the CEO of the EMA has delegated this responsibility to the Ryan White Part A Program within Maricopa County Department of Business Strategies and Health Care Programs.

Administrative activities under the authority of the Administrative Agent include:

Routine grant administration and monitoring activities, including the development of applications for funds, the receipt, monitoring and disbursement of program funds, the development and establishment of reimbursement and accounting systems, the preparation of routine programmatic and financial reports, compliance with grant conditions and audit requirements/promulgation of policies and procedures and continuous quality improvement initiatives.

All activities associated with the grantee's contract award procedures, including the development of requests for proposals, contract proposal review activities, negotiation and awarding of contracts, monitoring of contracts through telephone consultation, written documentation or onsite visits, reporting on contracts, and funding reallocation activities.

The administrative agent will conduct site visits with service providers to monitor program and fiscal compliance with contracts, and to ensure adherence to the EMA's Standards of Care as developed by the PC.

The lead agency (Contractor) agrees to include in any subcontracts a provision to the effect that the subcontractor agrees that Maricopa County Ryan White Part A Program shall have access to the subcontractor's facilities and the right to examine any books, documents, and records of the subcontractor, involving transactions related to the subcontract. Additionally, client charts, care/treatment plans, eligibility requirements, etc shall be available for inspection.

The Administrative Agent will also provide technical assistance and training that providers may be required to attend.

The CARE Act requires the establishment of quality management program and quality service indicators for all Part A programs to ensure that persons living with HIV disease receive those services and that the quality of those services meet certain criteria, specifically Standards of Care and the Public Health Services treatment guidelines.

The Maricopa County Ryan White Part A Program has established a Quality Management Program to assess all services funded under Ryan White Part A Program and to achieve the goals set forth in the CARE Act. All funded programs are subject to quality management reviews and technical assistance. All agencies must be able to demonstrate that health and support services supported by Part A funds are consistent with PHS treatment guidelines and the Standards of Care as established by the Planning Council.

All funded providers will be asked to submit quality management plans to reflect how providers are ensuring quality services.

1.4 APPLICANT ELIGIBILITY:

Eligible applicants for awards under this solicitation include public or non-profit health and social services providers, and other non-profit community organizations, medical care providers, community-based organizations, HIV/AIDS service organizations, academic entities, and city, county, state, federal governmental units. The CARE Act Amendments of 1996 provide for contracting with for-profit entities under certain limited circumstances. Specifically, the amendments allow Part A funds to be used to provide direct financial assistance through contracts with private for-profit entities if such entities are the only available provider of quality HIV care in the area (Sec 2604(b) (2) (A); Section 2631(a) (1). Contractors are prohibited from serving as conduits to pass on their awards to for-profit entities. **To better serve Persons Living with HIV/AIDS (PLWHA) within the EMA, the Maricopa County Ryan White Part A Program reserves the right, at its discretion, to issue multiple contracts within a service category pursuant to this Request for Proposal.**

All services must be directed to enhance the delivery of services to persons living with HIV, and, in limited, restricted instances, their families. These funds may not be used for prevention services.

Joint proposals from coalitions of agencies and organizations are allowable. However, if a lead agency (prime contractor) is proposing to sub-contract with another agency to perform more than 50% of the deliverables, the proposal must provide sufficient information regarding the qualifications of the sub-contracting agency.

In all cases, a lead agency (as prime contractor) must be identified. All proposals in response to this RFP which include the use of subcontractors must be submitted by a lead agency, with the approach to use the subcontractor(s) clearly outlined in their proposal.

All providers must have documented evidence to substantiate referral relationships on an ongoing basis. All officers must submit any written agreements with other organizations/entities that serve the community of persons living with HIV and are 1) service providers and/or 2) points of entry or access to HIV services. All officers' are strongly encouraged to include copies of such agreements, detailing each agencies/organization's roles and responsibilities, with each application.

The use of subcontractors and/or consultants must be pre-approved by the Maricopa County Ryan White Part A Program. If approved, the Contractor agrees to use written agreements which conform to Federal and State laws, regulations and requirements of this proposal appropriate to the service or activity defined by this RFP. These provisions apply with equal force to the subcontract as if the subcontractor were the contractor referenced herein. The Contractor is responsible for the performance of this contract regardless of whether or not a subcontract is used. The lead agency (Contractor) will submit a copy of each executed subcontract to the RWPA within fifteen (15) days of its effective date.

All proposals in response to this RFP which include the use of subcontractors must clearly state and document the details of the subcontract agreement. This will include a scope/intent of work for both the lead agency and all subcontracts proposed. The scope of the proposal must clearly identify the services to be provided by all parties for the proposal. Additionally, all subcontract agreements proposed must include a detailed budget and narrative, identifying all administrative costs, as defined in the "Administrative Costs" section of this RFP. Subcontracts will be restricted to no more than ten percent of the budget proposed.

- 1.5.1 The County reserves the right to reallocate funding during the contract period so that the services provided and corresponding contract amount may be decreased or increased, via contract amendment or Task Order, at the discretion of the County.

Furthermore, instances of non-compliance with billing and reporting requirements may result in the County reducing the Contractor's reimbursement by up to 10% of the corresponding month's billing. Billing forms and instructions are included in the current Ryan White Part A Program Policies and Procedures Manual refer to <http://www.ryanwhiteparta.com>

Any un-obligated balance of funds at the end of this Agreement period will be returned to the County in accordance with instruction provided.

1.6 METHOD OF PAYMENT:

Payment may be delayed or reduced if invoices are in non-compliance due to late submission, improperly completed or missing documentation/information or for other contract non-compliance occurring in the related grant year. Other non-compliance issues that may delay or reduce payments can be related to any contractual issue, and may not necessarily be related to the bill itself. Should County make a disallowance in the claim, the claim shall be processed for the reduced amount. If the Contractor protests the amount or the reason for a disallowance, the protest shall be construed as a dispute concerning a question of fact within the meaning of the "Disputes" clause of the Special Provisions of this Contract.

1.6.1.1 The Contractor understands and agrees that County will not honor any claim for payment submitted 60 calendar days after date of service. The Contractor understands and agrees that County will not process any claim for payment for services rendered prior to the end of the contract period which are submitted sixty (60) calendar days after the end of the contract period without approval of County. Claims submitted 45 calendar days from the last day of the grant year will not be honored or reimbursed.

All monthly **invoices** must be supported by auditable documentation, which is determined to be sufficient, competent evidential matter defined by the County.

The Contractor understands and agrees that all self-pay and third party payments must be exhausted to offset program costs before Ryan White funds are used. The Contractor must have policies and procedures documented and in place to determine and bill these other potential payment sources. These third party payers include but are not limited to Regional Behavioral Health Authority (RBHA), Medicaid (Arizona Health Care Cost Containment Services/AHCCCS), Arizona Long Term Care System (ALTCS), TRICARE, Medicare and private/commercial or other insurance. The Contractor will determine eligibility of clients and assist with client enrollment whenever feasible. Payments collected by the Contractor for Ryan White services must be recorded as Program Income in the Contractor's financial management system and deducted from bills issued to the County. Program income records must be made available to the County for assurance that such revenues are used to support related services. The Contractor shall have policies and procedures for handling Ryan White revenue including program income.

1.6.1.4 The Contractor shall have policies and staff training on the payer of last resort requirement and how it meets that requirement.

NARRATIVE

Organization Description

Southwest Center for HIV/ AIDS (Southwest Center), formerly known as Body Positive, brings 24 years of experience to support those living with and at risk for HIV/AIDS. Our mission is to reduce infection, improve quality of life, and contribute to worldwide research for the HIV/AIDS community. Our facility is currently located in Central Phoenix at 1144 East McDowell Road, Suite 200. We are a HIV/ AIDS service provider in Central Arizona that provides clinical trial research, HIV prevention education and testing, and wellness support services, include health and chronic disease education, behavioral health counseling, and medical nutrition.

Founded by a group of Gay men living with HIV, our core focus has been on serving Gay non-Hispanic Caucasian men as a priority at-risk population, and we have expanded our focus through the years to at-risk women, intravenous drug users, and Hispanic, African American, and Native American communities. We have invested significant resources into developing special expertise in correlating the prevention of domestic violence and partner violence with the prevention of HIV/AIDS, as well as focusing on at-risk youth in transition, and serving Veterans, who are especially at-risk after returning from serving in areas vulnerable to the spread of HIV/AIDS overseas and who are at-risk due to post-traumatic stress disorder in the U.S.

Staff members

Southwest Center is represented by 35 staff members; 24 are full-time, and 11 are part-time. Of our current staff, 71 percent are white (25 staff), 29 percent are people of color (10 staff), 23 percent are Latino/a (8 staff), and one staff person is Asian. Slightly less than 20 percent of our staff publicly identifies as being HIV positive.

Southwest Center's senior staff features more than four decades of senior management expertise. Southwest Center's President and CEO, Carol A. Poore, Ph.D., and MBA, has served the agency for more than five years and brings more than 20 years of senior public administration as well as corporate management. Steve Ward serves as Chief Financial Officer and Chief Operations Officer, overseeing all financial and grant reporting, human resources, and facility operation. Andrea Norman, MBA serves as the Director of Research, Behavioral Health and Wellness. Mesha Davis, MBA, serves as Chief Development Officer, and Tom Awai, MEP, serves as Director of Community Center Outreach.

Specifically, our medical nutrition staff includes a senior registered dietitian, Pam Karlberg, MS, RD, an experienced dietetic professional with deep HIV/AIDS experience based on over five years of practice and leadership, another registered dietitian, Peggy Williamson, RD, a vitamin shop coordinator, Chris McLaws, as well as four support staff. Support staff includes the director of the medical nutrition practice, Andrea Norman, an experienced manager and former business owner, and several front office staff.

Programs

Overall, Southwest Center provides a variety of support services to the HIV/AIDS community. We provide behavioral health services to nearly 500 clients, medical nutrition to nearly 800, offer more than 13 prevention and education programs tailored to meet the cultural, linguistic, and socioeconomic needs of our target audience. We provide wellness services to our community by partnering with local universities and colleges to offer complementary, alternative medical services to our clients at no charge. We operate a highly successful HIV testing program that tests approximately 2400 annually. We link people to care for those who test HIV-positive.

Specific to medical nutrition, Southwest Center provides medical nutrition services to more than 795 recipients providing individual medical nutrition counseling by licensed dietitians who have each spent 5-10 years serving the HIV/AIDS community. Because of their expertise understanding the expertise associated with HIV and nutrition issues, we have been the sole provider of medical nutrition to the Phoenix Eligible Metropolitan Area (EMA) for the past 10 years. We also offer a fully stocked Vitamin and Herb Shop that provides pharmaceutical grade vitamins, minerals, and supplements to clientele who are assessed and treated by the registered dietitians.

Future expansion and opportunity for integrated care

A voter-approved City of Phoenix 2006 bond issue included purchase of a building for Southwest Center to develop an HIV community health and education center. As managing director, Southwest Center selected a 50,000 square-foot facility that for more than five decades was the home to the local Gannett/NBC television news station. The

building is steps away from light rail and public bus transportation in the center of the downtown Phoenix urban core. We expect to move into the renovated facility by January of 2013. Southwest Center and our long-term program partner, Maricopa Integrated Health System (McDowell Healthcare Center, the state's largest public HIV/AIDS primary care clinic), currently operate in the same building, and both will move to the new facility. This strategic partnership provides integrated HIV/AIDS primary care and support services for men, women and youth of all ages and ethnic backgrounds, including the lesbian, Gay, bisexual, transgender and questioning (LGBTQ) community. At the new center, we plan to triple the size of the Vitamin and Herb Shop, bringing additional products and nutritional services to the community.

Community Integration

Southwest Center works with other Arizona AIDS service organizations to refer clients to the most appropriate site for service to avoid duplication of services, increase client access to care, eliminate barriers to care, reduce healthcare disparities by providing equitable treatment and connection to service, prevent gaps in service, and reduce competition between and among service agencies. We partner closely with Care Directions, for example, to ensure that clients are referred for their medical nutrition needs. We send lab reports, Body Index Assessments, initial nutritional assessments, treatment plans and progress notes to our clients' primary care providers. We share at least 400 clients with Maricopa Integrated Health Systems (MIHS) and the other 400 clients are shared with key primary care providers include Pueblo Medical group (Dr. Cunningham), Spectrum Medical Group (Dr. Vanig), and others. Because we share clients we communicate regarding the clients' status and work together to ensure their health and wellness. And, these shared referrals ensure all clients have equal access to each organization's services. More details of our collaboration with our community are noted below.

Maricopa Integrated Health Services-McDowell Healthcare Center (MIHS): For nearly 20 years, Southwest Center has been co-located with the McDowell Healthcare Center as a result of our integrative partnership with MIHS. Most of our clients who test HIV-positive have no health insurance and are directly linked to HIV primary care at MIHS. Those who do have insurance are either referred to MIHS or to other private HIV medical specialists in Maricopa County. Through our HIV testing, wellness, education and clinical trials programs, Southwest Center has cultivated relationships with more than 30 Arizona physicians who serve a substantial number of patients impacted by HIV/AIDS.

Care Directions: For more than two decades, Southwest Center has worked closely with Care Directions, the Central Eligibility provider for all Ryan White Part A services in Maricopa County and the largest provider of HIV Medical Case Management in our region. We have an existing Partnership and Referral agreement in place and established a specific Referral agreement for this proposal. We have releases of information for most of our shared clients to facilitate communication between organizations, and to ensure linkage to Medical case management and Primary Medical Care. Our partnership is especially relevant because all newly diagnosed individuals entering Ryan White care are now required to be referred to Medical Case Management as a step in accessing Ryan White Part A services.

Phoenix Shanti, Ebony House, Chicanos por la Causa: Many of our clients access the Phoenix EMA through a variety of gateways. Because we have provided nutritional services for nearly 10 years, the agencies listed above refer their clients to the Southwest Center for nutritional services.

Phoenix Veterans Affairs Health Care System- Carl T. Hayden VA Medical Center: The Infectious Disease Division of the Phoenix Veterans Affairs Health Care System has formed an agreement with Southwest Center to refer HIV-positive clients to our agency. This is a significant partnership for us as the Phoenix VA Health Care System has 350 HIV-positive patients, and many of these individuals do not currently access the existing Ryan White care system.

Program design and expertise

The medical nutritional services offered by Southwest Center includes several key components including one-on-one individual consultations conducted by registered dietitians, a fully stocked vitamin and herb shop that offers pharmaceutical-grade vitamins and minerals distributed to clients with a prescription by a registered dietitian, and welcoming staff who facilitate referrals and client care. In the past, we have also sent our dietitians out to satellite food box sites like Joshua Tree, Agape, and Compassion in Action to reach clients who are unable to consult with the dietitians at our central Phoenix location. With the food box program being defunded, we are evaluating new strategies to reach clients with transportation issues. We have held open hours for a walk-in clinic and may provide services at other food distribution sites like St. Mary's Food Bank. We are investigating options for next year but

feel we are positioned to create some new approaches when we fully understand where our clients plan to get their food. We are certain about our on-site services that include our long-standing and comprehensive medical nutrition program including:

- A comprehensive individual assessment. This assessment was developed by working closely with the Phoenix EMA Ryan White Part A office and using HRSA, Planning Council and American Dietetic Association (ADA) standards.
- Treatment plans individualized for each client that take into consideration their HIV status, co-morbid conditions, resources and lifestyle issues.
- On-going individual consultations for each clients with tailored education memorialized with progress notes
- Prescription, provision, and distribution of pharmaceutical-grade vitamins and /or minerals per a HRSA-approved formulary through our Vitamin and Herb Shop
- Provision of caloric supplementation for weight loss or weight gain issues

Southwest Center's medical nutrition therapy services are delivered as private consultations where the client is given personalized attention by the registered dietitians. Southwest Center's dietitians' specifically encourage client-directed problem solving, and participation in decisions about treatment and care, while emphasizing self-care and the individual's goals for improved health.

During the private consultation, the dietitians at Southwest Center help HIV-infected and affected persons increase quality of life in myriad ways, by offering:

- Assessments and treatment plans that offer goals and strategies to improve health through diet and exercise.
- Ongoing nutritional assessment and care

A typical client visit

A Client is seen initially for a one-hour visit at which time a complete Nutritional Assessment is performed that includes evaluation of the following: Weight changes, Medications, Labs, Vitamins or Mineral intake, Over the Counter supplements, Medical History, GI issues, Usual diet, Body Composition, Activity, Living Situation, Cooking and Shopping ability, Food security, Understanding of impact of diet on health, Substance Abuse History, psychological issues being treated and their support system.

Using the initial assessment, the dietitian creates a treatment plan and provides education. Prescriptions are written for necessary supplements. The treatment plan outlines the goals that the client and clinician have determined are reachable for the next 6 months to a year. These goals are reviewed with the client and initialed by them. Goals typically focus on weight, diet changes, activity changes, caloric supplements, and vitamin and mineral supplementation.

The client then takes the prescription to the Vitamin and Herb Shop to fill the prescription. Then, at no charge, the client is given the prescribed nutritional supplements. The client can then return to Southwest Center monthly to get their vitamins and minerals, caloric supplementation (Ensure) and/or for follow-up with the dietitian.

If the client has other complex needs, Southwest Center maintains an internal referral network in which dietitians can refer to other clinicians with different specializations in order to most effectively meet the needs of persons served. In the event a client with specific medical issues needs special medical attention that cannot be provided by a clinician or staff of the Southwest Center, the dietitians will refer them to one of many collaborating professionals or agencies equipped to work with that individual's unique needs. When making a referral, the dietitian considers the unique needs of the individual, including the identified problem, transportation, insurance or other related concerns.

Southwest Center is able to extend case management services – and impact – by working collaboratively with Care Directions which serves as the entry point for newly diagnosed individuals seeking intake for case management or those not currently accessing services. Southwest Center remains a major source of community-wide HIV/AIDS service referrals.

The joint location and linkage role of Southwest Center with the McDowell Health Care Facility (serving more than 3,500 patients annually) also attests to the significance of the organization within the overall HIV/AIDS continuum of care and ongoing communication and collaboration is creating a future of integrated care between all care providers of the persons served.

Southwest Center staff members participate in ongoing cultural competency training and maintain cooperative relationships with all ethnic community service providers. The agency provides quality service to all members equally and without bias or prejudice; therefore, all HIV/AIDS nutritional services are designed to reflect an understanding of issues facing current and emerging HIV/AIDS populations. Southwest Center continues to increase access to quality services for culturally and ethnically diverse populations and have strategies in place to attract new participants from all populations. Our success can be measured by high levels of participant satisfaction from a diverse group of individuals who represent the population of Maricopa and Pinal Counties.

Southwest Center proposes to provide individual counseling for persons with HIV/AIDS under the Medical Nutrition Therapy Services category. Southwest Center's registered dietitians will provide ongoing one-on-one individual counseling. ~~Nearly six hundred (599)~~ one-on-one individual counseling sessions for the grant year will be provided under the terms of this award. All counseling services adhere to HRSA regulations and ADA guidelines and meet Southwest Center's own internal policies and procedures which include adoption of the a code of ethics for board, staff, and contractors.

Southwest Center also proposes to provide vitamins and minerals through our Vitamin and Herb Shop for infected individuals. We will provide \$150,000 (cost basis) worth of pharmaceutical grade, formulary-approved vitamins and herbs to the projected 1000 clients. Each client will receive at least \$150 worth of vitamins and minerals per year.

Service Goals and Expected Outcomes

The generalized outcome of this program is to improve the overall quality of life for individuals living with HIV/AIDS. Each individual will develop skills to make informed decisions regarding healthy lifestyle choices through improved nutritional choices.

We intent to provide 1010 initial assessments and one six-month progress check/re-assessment for each client. The approximately twenty-five percent of clients that need to be seen more often will be evaluated on a quarterly basis. We have also included estimates to see 50 clients monthly. The initial assessments will be conducted for one hour. The progress checks will occur as thirty (30) minute consultations to be held at least once additional to the annual assessment. Desired outcomes for one-on-one consultations include:

- Improved overall health from an improved Nutrition Intake
- Better decision making towards optimal diet and activity choices
- Maintaining or improving lean body mass
- Coordination and referral to an adequate food supply

Individual Outcomes are based on treatment goals that are created for the client's individual nutrition needs. His/her weight is monitored at each visit. Labs are monitored as completed and available from the MD. The BIA is assessed every 6 months or annually depending on the need, determined by the RD.

Four key goals are measured regarding individual outcomes in the medical nutrition area. They are: 1) Define our annual retention rate 2) Maintain at least 80% of clients in care 3) Identify number of underweight clients in care

with Southwest Center for HIV/AIDS 4) Retain at least 75% of underweight clients in care as defined by assessment and counseling at least four times per year.

Additionally, an annual client satisfaction survey will be distributed to all agency clients as required by Ryan White and Health Resources and Services Administration guidelines. The desired outcome is that participation in group sessions provide a network of support for clients that help them acquire the knowledge and coping skills they need to live independently in the community.

Quality Initiatives

Southwest Center maintains high standards in quality management and contract compliance issues. In addition to the quality indicators and outcome measures discussed previously in this proposal, we continually monitor compliance with all contract objectives including client eligibility. Previously, random audits were conducted on client charts to ensure all documentation is correct and available. However, we determined that a higher level of scrutiny was needed in order to ensure appropriate therapeutic care and documentation is consistent with the care and treatment plan and the documentation met the standards set by the Ryan White Part A office. In order to implement that higher level of internal scrutiny, we have implemented daily audits, increased the hours and responsibility of our compliance manager and increased senior management focus and support on continuous quality improvement.

In the current and past Ryan White contracting experience, the agency has worked with the Quality Management Office to improve quality outcomes, administer the required annual surveys and participate in overall, continuous improvement opportunities for Southwest Center and ultimately, for HIV/AIDS care in the Phoenix EMA. Southwest Center is committed to continued quality improvement and effective outcome measures for all services offered.

Personnel and Staffing Model

All Southwest Center programs are built upon a foundation of the integration of support, knowledge, advocacy, expertise and cooperation. The staffing model for the proposed services includes existing key staff, which includes a two registered dietitians, one of whom serves as the “lead,” 1 administrative director, 1 vitamin shop coordinator, 1 front office staff, 1 quality control manager. The responsibilities of the nutritional therapy program staff are to conduct one-on-one sessions with clients, provide resource linkages, ensure quality, and compile follow-up procedures and reports. The administrative director and quality control manager will manage the grant specifics and the quality control and billing efforts. Registered dietitians provide the individual services to clients. To ensure quality and integrity of services, all one-on-one consultations are conducted by primary, licensed Southwest Center medical nutrition staff. The entire medical nutrition staff includes:

Populations served

Gay HIV-Positive community: Historically, our organization served a significant population of Gay men living with or at risk for acquiring HIV. Founded by Kirk Baxter, a HIV-positive gay man, Southwest Center has always been a welcome haven for the LGBTQ community in central Arizona. We have significantly invested in the gay community by not only providing HIV services but also participating in the Gay Pride parade, Rainbows Festival, gay-owned businesses, and the gay-oriented media.

Our programs continue to be tailored to serve our largest population of HIV positive Gay men. We provide support groups targeted to HIV positive Gay men. Our wellness services, including mental health and medical nutrition are provided by staff with significant experience serving Gay and other MSM, and many of our staff publicly identify as being Gay. We also provide support groups and educational workshops focused on people who are aging with HIV. This is vital given the aging of many HIV positive people who have seen great success due to antiretroviral medications.

The Southwest Center provides weekly group health education and lunches for this diverse mix of HIV positive individuals. Topics include: Living well with HIV, HIV as a chronic manageable disease, the value of dental care, Co-morbidities related to HIV/AIDS, Aging with HIV, Medical adherence, and Life skills. Specifically, we have offered and will continue to offer topics as Eating to Lower Cholesterol, Carbohydrate management of Diabetes, Whole Grains and Fiber, Healthy Eating and HIV, Eating to improve Bone Density, Food Safety, Nutrient Density to Control Calories. A majority of our programming focuses on serving HIV positive people and a significant majority of our clients self-report as being Gay or bisexual men.

One example of our commitment to the LGBTQ population revolves around the Healthcare Equality Index. In 2012, Southwest Center received the highest ranking from the Human Rights Campaign (HRC) on their annual Healthcare Equality Index (HEI). The HEI is an annual report created by HRC that documents the adherence of healthcare organizations to standards regarding competency in providing quality healthcare to Lesbian, Gay, Bisexual and Transgender individuals. The HRC reviews organizational policy and capacity to provide culturally competent healthcare to LGBT clients. Specifically, they reviewed policies, procedures, training curricula, data collection and client grievance/complaint processes specifically focused on LGBT healthcare competency. In addition, our client population has grown and diversified to include multiple groups and communities in Maricopa County affected by HIV disease, including:

Domestic Violence and HIV: Our Women's Health Empowerment Program and our Domestic Violence and HIV Program are two additional examples of an intervention that utilize curricula we have developed and that include pre- and post-test that document significant knowledge gains and readiness to take steps to decrease risk. These programs are focused on women at high risk for acquiring HIV, and are funded by a large charitable contribution, as well as local governments. Both interventions are provided to more than 2,000 women annually at more than 12 partner community, social service and domestic violence agencies. Our program includes mobile HIV testing provided by one our HIV testing staff at each partner organization following a group level HIV/STD prevention workshop.

Youth in Transition: We also provide programs targeting HIV positive youth 18-24 through our partnership with Phoenix Children's Hospital (PCH) Bill Holt Clinic. Our Youth Transitions program helps to transition PCH clients to adult medical care as they age out of PCH care. We are working collaboratively to develop our Third Annual HIV Positive Youth Summit that will be held in October 2012 and will provide current health, self-advocacy and prevention education to our shared youth clients. We also provide multiple HIV prevention programs targeting different high risk populations of unknown HIV status.

Women and HIV: Southwest Center also provides programming targeting women who are living with HIV, such as our Women's Day Educational Lunch and multiple support groups. Our Child Watch program ensures women with children can leave their children with trained staff in a safe space while mom accesses critical care offered by Southwest Center and our partner MIHS McDowell Healthcare Center. Our Child Watch program was the vision of one of our staff members who is a mother living with HIV. She realized from her own experience that a program like this was necessary to help women access care, proposed the concept to the organization management and the program became reality.

The poor and working poor: We serve Arizona men, women, seniors, minorities, children and at-risk youth, the homeless, immigrants and families, most of who are living below the federal poverty level.

Diverse populations: Approximately 84 percent are men over the age of 25, 13 percent are women over the age of 25 and 3 percent are youth. Approximately 50 percent are White or non-Hispanic; 28 percent are Hispanic, 6 percent are Black, and 16 percent are bi-racial or classified as Native American, Asian-Pacific Islander and other.

Cultural Competence and Accessibility

Culturally competent programming serves as the foundation of the Southwest Center's offerings. As one of Arizona's oldest and one of the largest nonprofit HIV/AIDS service organizations in Arizona, we have been on the front lines of the fight against HIV and AIDS since our founders first joined forces in 1988 to address the HIV/AIDS crisis. From the very beginning we were committed to the unique cultural factors that impact people and continue to provide a unique combination of prevention, research and wellness support services in an integrated care model that respects and embraces the diversity of people accessing our care. Our client population has grown and diversified to include multiple groups and ethnic communities in Maricopa County affected by HIV disease.

It is important to note that every Southwest Center program, including all HIV prevention and education programs, is provided in both English and Spanish. Groups are held separately in English and Spanish and are provided by staff members who represent the culture of the client group.

We have an existing contract with Pacific Interpreters, an American Sign Language provider, and staff who are fluent in Spanish. Due to our contract with Pacific Interpreters, we can competently offer services to clients in 78 languages. We recently passed a CLAS audit conducted by AHCCCS/Magellan and have conducted CLAS training for our staff.

Southwest Center's Board of Directors and senior management team purposefully and actively recruit to ensure diversity of age, ethnicity, gender, sexual orientation, race, professional background, geographic representation within our service area, and representation of the HIV-positive community. Our Board Bylaws state that Southwest Center: "shall not, in any way, discriminate against any person or group of persons, regardless of race, religious preference, sex, age, creed, sexual orientation, gender identity or expression, ethnic origin, disability or HIV status."

Southwest Center has established policies protocols, and annual training/evaluation for staff regarding safe work practices, OSHA and HIPAA regulations, and cultural competency. All newly hired staff are required to complete a cultural competency webinar immediately upon hire. Trainings are also provided by AIDS Education Training Center (AETC) on current trends related to HIV. HIPAA, OSHA, and cultural competency compliance is evaluated annually during employee evaluations. Southwest Center has been in operation for more than 22 years. During this time, we have developed a deep understanding of our clients, and established a strong positive presence in the communities that we serve. The diversity of people accessing our services, including our HIV testing services shows that Southwest Center is closely connected with the populations at highest risk for HIV disease. This relationship has been, and will continue to be, essential in meeting our clients where they are – physically, emotionally, and mentally. Additionally, hiring processes will include consideration of the communities' interpersonal styles, cultural beliefs, practices, and preferred languages, with an aim of building and maintaining a staff makeup that mirrors the community's to the greatest extent possible.

Our staff members are required to proactively seek ways to deliver services in the language, style, and cultural context that would be most effective and comfortable for the client. Our intake forms and progress notes specifically prompt staff to ask the client about their preferences.

In addition, Southwest Center has a close relationship with organizations focused on serving minority communities, such as Valle Del Sol, Chicanos Por La Causa, and Ebony House. In fact, Ebony House provides an ADHS-funded "Sista" intervention at Southwest Center's lunch series for women clients several times each year. This is evidence of a strong partnership at work. A Spanish speaking Latina case manager at Care Directions (one of our partner

organizations) recently came and co-facilitated multiple workshops with our Spanish speaking Women's Center Manager, Diana Diaz, which was for Spanish speaking clients. These relationships enable Southwest Center to expand services by leveraging the capacity that exists within the system of HIV service providers.

Moreover, we have implemented the "I SPEAK" posters available through the Census Bureau and the Department of Justice. Knowing that Arizona's literacy rate is between 15 and 20 percent and the underserved population is disproportionately at a Level 1 literacy rate, Southwest Center enforces a practice to filter all of the agency's relevant direct client program materials through the Flesch Kincaid reading level assessment to ensure that materials are written at the 6.5 grade level or below.

Unless such action is dismissed for failure to prosecute, such action will make the award or other final disposition of the arbitrator(s) a nullity.~~

Section 4.21

SOUTHWEST CENTER FOR HIV/AIDS

&

MARICOPA COUNTY, ARIZONA

WHEREAS, Maricopa County, Arizona (“County”) and Southwest Center for HIV/AIDS (“Contractor”) have entered into a Contract for the purchase of Ryan White Part A – Medical Nutrition Therapy dated February 20th, 2013 (“Agreement”) County Contract No: 12123-RFP.

WHEREAS, County and Southwest Center for HIV/AIDS have agreed to further modify the Agreement by changing certain terms and conditions;

NOW, THEREFORE, in consideration of the foregoing, and for other good and valuable consideration, receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. Effective October 15, 2015, Southwest Center for HIV/AIDS has agreed to provide supplemental food services to eligible RWPA clients to provide food gift cards to eligible clients who meet the specific criteria which demonstrate the need for supplemental food. As outlined in the full scope of work below.

Please see below for the revisions:**Additional Scope of Work:**

The Ryan White Part A Program provide Medical Nutrition Services through a single contractor, Southwest Center for HIV/AIDS. The RWPA Planning Council has directed the program to provide supplemental food services to eligible RWPA clients who meet criteria which demonstrates the need for supplemental food. The Medical Nutrition provider will provide the screening and approval for these services. As part of this sole source procurement, the Medical Nutrition provider will maintain all documentation of the screening and approval for the supplemental food cards, and distribute the cards monthly to clients who meet monthly criteria to submit receipts and have their weight measured monthly to identify the health outcomes associated with the supplemental food. There are no other contracts who can provide these services currently contracted with RWPA Program, and allowing this sole source procurement will allow the RWPA Program to bring these additional services in October 2015.

Southwest Center for HIV/AIDS is the only RWPA contractor for Medical Nutrition Services, and there is not a need for additional providers of Medical Nutrition Services at this time. In the past, RWPA has provided supplemental food services through contracts with local food bank providers, but there is a large infrastructure cost associated with this method of distributing food services. Additionally, food box providers cannot provide the medical nutrition review of criteria which will be required to maintain eligibility for these services, such as providing medical nutrition assessments every six months and monitoring weight to determine health outcomes of the supplemental food.

The estimated cost of providing this service will be \$120,000 for the current contract year (March 2015-February 2016). This will provide approximately 200 clients a \$50 food card monthly. The agency will be allowed a 10% administrative fee to administer this program. This administrative fee is the allowable administrative fee for all RWPA programs.
