Get the Year, Make, Bed Length, Cab Style

STEP 1: HEIGHT

The front of the unit is slanted 4 or 6 degrees to best fit the cab of the truck. All units 26" or higher will have 15* sides and the side door height will change from 15" to 20". To increase the interior capacity, the unit can be built with the 90-degree side wall option with square top edges and 90-degree front with rounded top edge (Radius Front).

Mini Size	Fits: Ranger, Frontier, Tacoma, Colorado, Canyon, Dakota, Etc	Short Bed	Long Bed
