

## **Oral Health Workgroup Recommendations**

The Oral Health Workgroup recommends that the Planning Council approve a change in the current maximum cap on Oral Health benefits from a maximum of \$2500 to a maximum of \$3500 for grant year 2016. Any client requiring treatment plans with costs above \$3500 will have the first \$3500 paid through the RWPA Delta Dental Insurance or Direct Dental Services programs. Any RWPA client would be eligible for additional oral health benefits through the Ryan White Part B Program's Delta Dental Insurance program for the remainder of the RWPB 2016 grant year (March 31, 2017) by dis-enrolling from the RWPA Oral Health program and reapplying for the RWPB Oral Health Program. The RWPB program will review and approve treatment plan costs over \$3500 per the RWPB current protocols.
