Dear Mr Watkins and Ms. Applegate,

I apologize for this late response to your invitation to comment.

I am an applicant for the permanent SUP for Eagletail airport AZ99 in the Huarquahala valley. I own 50 acres of land that I purchased from Bill O'Brien in 1994. I also built and own a house situated on one of those parcels.

I very strongly support the continuing SUP and the airport as that was my primary interest in the land when I bought it.

The permanent easement for the taxiway and runway has always been a part of the CCR's for that property and I intend to continue to enjoy the use of that easement in perpetuity. I would prefer that this easement continue to be a private airport so that I can work with other landowners out there to affect improvements that would improve safe operation of my aircraft, along with the aircraft of other likeminded owners.

I do not wish to speak at the meeting.

Sincerely,
John Fredricks
