Joel-

I was just now was asked by my attorney in this matter to respectfully ask for a continuance. We were hoping to achieve a 2 month continuance

There are 2 reasons for this request:

1. I need to seek new counsel from a land use attorney. They are recommending some names and I will need time to thoroughly review everything with whoever I retain for that advice.
2. My attorney and the attorneys for the garage builder have been working rigorously on resolving the Complaint for the encroachment. They feel this is reasonably close to be resolved.

Is there any chance we could continue this discussion in 2 months?

Thanks very much and I am hopeful this will meet with your approval?

Mike Thomas
