

Rule 322 Clarification

Limitations – Sulfur in Fuel: An owner or operator of any applicable equipment listed in Section 102 of this rule that burns fuel oil alone or in combination with any other fuel as either emergency fuel or non-emergency fuel shall use only:

1. Low sulfur oil containing less than or equal to 0.05% sulfur by weight.
2. Waste derived fuel gas that contains no more than 0.08% sulfur by weight, alone or in combination with other fuels.
