

Flood Control District

of Maricopa County

Date: November 4, 2021

THE FLOOD CONTROL DISTRICT OF MARICOPA COUNTY GENERAL CONSTRUCTION NOTES

The following notes below shall be provided on all civil, drainage and landscaping construction plans. If plans are not required, then notes shall be provided on the Permittee's construction work plan.

1. All work performed within Flood Control District of Maricopa County (District) rights-of-way (ROW) shall conform to the latest District Standard Procedures and Details as published on the District's web site.
2. The Permittee shall obtain a copy of the executed District ROW Use Permit prior to commencement of work within District right-of-way, maintain a copy of the permit and stamped approved plans on the project site at all times, and shall be available upon request.
3. The Permittee shall notify the District's assigned Operations and Maintenance (O&M) Inspector or Dam Safety Inspector at least 48 hours in advance prior to any excavation, backfill, slurry, concrete, and/or riprap placement being performed within the District's ROW. Refer to the executed District Permit for the O&M Inspector's contact information. If work is impacting a District Levee, Dam or Flood Retarding Structure (FRS), refer to the executed District Permit for the Levee/Dam Safety Inspector's contact information.
4. The Permittee performing excavation operations is responsible for locating and protecting all underground utilities. To expedite this process, the Permittee shall call Arizona 811 (formally Arizona Blue Stake) at 811 or 1-800-782-5348 to identify underground utilities at least 48 hours in advance prior to start of the work.
5. Any damage or disturbance to District structures, equipment, materials, vegetation, or surrounding District ROW shall be replaced or repaired, in-kind, to the satisfaction of the District's O&M Inspector or Levee/Dam Safety Inspector.
6. In the event the terms and conditions in the District's permit are not consistent with the District-approved plans, the District's permit will have precedence.

7. In order to close out the District's Permit and release performance bonds, all work (included associated punch-list items) must be completed in full to the satisfaction of the District's inspector and engineer. Certified as-built plans along with required quality assurance tests must be provided and accepted by the District, and all easements required by the project must be recorded prior to Permit closeout. If the work only involves geotechnical analysis, site investigations, surveys, or flood related studies, then finalized reports, studies and/or survey plans must be provided and accepted by the District prior to Permit closeout.
