

# CURRENT & UPCOMING PROJECTS

## FLOODPLAIN DELINEATIONS

### **Ashbrook Wash & Cloudburst Wash Floodplain Delineation Study**

Study includes a total of 6 miles of detailed re-delineation of Ashbrook Wash based on changed conditions in the watershed and a new delineation of Cloudburst Wash, both as requested by the Town of Fountain Hills. New topographic mapping has been obtained for the study. The study has been submitted to FEMA.

*Ashbrook Wash Channel Improvements*

### **Fountain Channel Floodplain Delineation Study**

This study began in the fall of 2018 as a request from the Town of Fountain Hills. It includes developing new hydrology based on changed watershed conditions. A new floodplain delineation will be performed for approximately 0.5 mile of Fountain Channel. New topographic mapping is available for the study.

## PLANNING STUDIES

**FY2023-2024**

**Fountain Hills ADMP Update**
