Gum disease is increasingly being linked to complications for pre-term birth, heart disease, stroke, diabetes, osteoporosis, and other health issues. That's why this dental plan includes **Cigna Dental WellnessPlus<sup>SM</sup>** features. When you or your family members receive any preventive care service in one plan year, the coinsurance amount will increase in the following plan year for services in Class II and III. Each year you or your family members remain enrolled in this plan and continue to receive annual preventive care, the coinsurance amount will increase for Class II and III in the following plan year, until it reaches the level outlined below. <b>Benefit Plan Provisions:</b>			
<b>In-Network Reimbursement</b>	For services provided by a Cigna Dental PPO network dentist, Cigna Dental will reimburse the dentist according to a Fee Schedule or Discount Schedule.		
<b>Non-Network Reimbursement</b>	For services provided by a non-network dentist, Cigna Dental will reimburse according to the Maximum Reimbursable Charge. The MRC is calculated at the 90th percentile of all provider charges in the geographic area. The dentist may balance bill up to their usual fees.		
<b>Cross Accumulation</b>	All deductibles, plan maximums, and service specific maximums cross accumulate between in and out of network. Benefit frequency limitations are based on the date of service and cross accumulate between in and out of network.		

<b>Policy Year Benefits Maximum</b>	The plan will only pay for covered charges up to the yearly Benefits Maximum, when applicable. Benefit-specific Maximums may also apply.
<b>Policy Year Deductible</b>	This is the amount you must pay before the plan begins to pay for covered charges, when applicable. Benefit-specific deductibles may also apply.
<b>Pretreatment Review</b>	Pretreatment review is available on a voluntary basis when dental work in excess of \$200 is proposed.
<b>Alternate Benefit Provision</b>	When more than one covered Dental Service could provide suitable treatment based on common dental standards, Cigna HealthCare will determine the covered Dental Service on which payment will be based and the expenses that will be included as Covered Expenses.
<b>Oral Health Integration Program (OHIP)</b>	Cigna Dental Oral Health Integration Program offers enhanced dental coverage for customers with the following medical conditions: diabetes, heart disease, stroke, maternity, head and neck cancer radiation, organ transplants and chronic kidney disease. There's no additional charge for the program – those who qualify get reimbursed 100% of coinsurance for certain related dental procedures. Eligible customers can also receive guidance on behavioral issues related to oral health and discounts on prescription and non-prescription dental products. Reimbursements under this program are not subject to the annual deductible, but will be applied to and are subject to the plan annual maximum. Discounts on certain prescription and non-prescription dental products are available through Cigna Home Delivery Pharmacy only, and you are required to pay the entire discounted charge.
