We'll Protect You While Protecting You!

We recognize the impact COVID-19 has had on households and the community. While we do not know when schools will reopen, we want to prepare families for when they do and prevent long wait times.

Vaccine preventable diseases still exist as well as the need to vaccinate against those diseases! The CDC recommends continuing to vaccinate while following social distancing and cleaning measures.

Starting April 20, 2020 and until further notice, the West Valley and Mesa Immunization Clinics will open to **appointment only**.

In order to protect the health and safety of everyone we are:

- Allowing one family in at a time
- Asking only the person/s needing vaccine and only one parent or guardian to accompany children. Everyone else is asked to remain outside of the Immunization Clinic while practicing social distancing.
- Ask families to maintain social distancing while waiting for your appointment
- Cleaning the area and items between families
- Asking families to avoid coming to the immunization clinic when you or your child is [sick with COVID-19 symptoms](#), which may include fever, cough, and difficulty breathing.

To prepare for your visit we recommend bringing:

- your own pen
- the immunization record for the person being vaccinated
- the insurance card

To schedule your visit at either clinic, call 602-506-6767.

We look forward to serving you!
