Maricopa County Travel Reduction Program (TRP) Variance Application

Organizations participating in the TRP may submit a written request to the TRP Regional Task Force (Task Force) for a variance from any requirements of the TRP pursuant to [A.R.S. §49-589](#). Such requests must be submitted to the Task Force for consideration. Employers will be given a notice of approval or disapproval within 90 days of application submission.

TRP will include any request received by the first of any given month on that month's Task Force meeting agenda. Submitting a variance request does not exempt your organization from TRP participation until the request has been approved by the Task Force.

Please return this application and any supporting documentation to TRP@maricopa.gov. Once submitted, you will receive a confirmation that your organization's request has been placed on the Task Force agenda. You will be provided with information on how to participate in the Task Force meeting. Your participation is recommended but not required.
