MOLECULAR DIAGNOSTICS TEST RESULT UNITS

Canine Distemper Virus RealPCR a	POSITIVE
CDV Quantity b	10 THOUS/SWAB
Fold Difference From Cutoff	0.10
	LOW CDV POSITIVE

CDV viral load is low, which is possible with early infection, resolving infection, or vaccine interference. If the dog has been vaccinated with a modified-live CDV strain within the past 2 weeks, the positive CDV result may be due to detection of the vaccine strain. If the dog has not been vaccinated recently or received the recombinant CDV vaccine, the positive CDV result is consistent with the early or recovery phases of a wild-type infection, particularly if there is known exposure or compatible clinical signs; re-testing in 7-10 days is recommended.

#### CDV Interpretation

M22-571869	A4728221	4/26/2022	NOTE	BEHAVIOR
------------	----------	-----------	------	----------

04/26/22 13:15 Dog has become extremely anxious around other dogs, dog has stopped eating at this point unless dogs are out of sight and owner is present. Lucky has attacked 4 dogs, separate incidents and killed 1 small dog.

#### DESCRIBE HOW YOUR PET ACTS WHEN S/HE INTERACTS WITH PEOPLE S/HE IS FAMILIAR WITH.

Lucky has become very uneasy around others and very confrontational. Lucky does not respond when called.

#### DESCRIBE HOW YOUR PET ACTS WHEN S/HE INTERACTS WITH/MEETS STRANGERS?

Lucky chases after those he does not know and becomes timid.

#### DESCRIBE HOW YOUR PET ACTS WHEN S/HE INTERACTS WITH SMALL KIDS?

Lucky prefers to stay away from children.

#### DESCRIBE HOW YOUR PET ACTS WHEN S/HE INTERACTS WITH OTHER ANIMALS.

Lucky attacked 4 separate dogs, killing one.

#### WHAT IS YOUR PET'S DAILY LIFE LIKE? WHERE DOES YOUR PET SPEND THE DAY, THE NIGHT, AND HOW DOES YOUR PET PASS TIME?

Lucky spends his day inside the house with the family. sleeps inside with the family.

#### DOES YOUR DOG HAVE ANY DESTRUCTIVE BEHAVIORS OR GET NERVOUS WHEN LEFT ALONE? IF SO, DESCRIBE WHAT S/HE DOES AND WHEN.

he will scratch at the door and bite the door when left alone. He has broken out of all kennels because he does not like being inside them when left alone.

#### CHOOSE THE FOLLOWING ITEMS THAT BEST DESCRIBE YOUR DOG'S HOUSE-TRAINING.

My dog is fully house-trained and never has accidents

# Information for Animal ID # A4728221

## WHAT ARE SOME OF YOUR PET'S FAVORITE THINGS?

Lucky loves to sleep. he does not play fetch, loves to cuddle.

## DOES YOUR DOG HAVE ANY OBEDIENCE TRAINING OR KNOW ANY COOL TRICKS? WHAT ARE THEY?

sneak, shake, laydown

NOTE

EUTH CALL

04/26/22 13:18 [REDACTED] owner [REDACTED] would like to be contacted if this pet is ever at risk

05/02/22 17:19

Attempted to reach owner to discuss o/s reasons, may be at risk for euth depending on previous notes of attacking other animals, LMOM to call back. [REDACTED]

05/03/22 09:36

Called owner to discuss surrender reasons. She got Lucky from a breeder 6 years ago.

About four years ago first incident happened. A dog came into Lucky's yard (pit bull) and Lucky attacked and chased it down the road. Both dogs fought but minor injuries.

Lucky would fight with the other dog in the home (springer spaniel), mutual fights, but non injurious.

Another instance was from December, sister had her little poodle over, owner is not sure what happened, dogs were outside unattended, Lucky had attacked the little dog severing an artery in the neck and the dog had to be put down.

Lucky is ok when strangers come over. Owner has kids in the home that he grew up with (7yr, 10yr, 13 yr) and was never aggressive towards them.

Clarified "chasing strangers" owner said that Lucky wants to play.

Clarified "prefers to stay away from children" owner described him as lazy, didnt play a lot with the kids, never growled at the kids.

Owner ultimately surrendered him because they had some life changes (sister and kids moved in) and there was a lot of chaos in the house, and since Lucky had attacked her little dog the sister had become afraid of the dog. Owner was keeping the dog away from the sister and her family and owner feels that it was unfair to the dog so she surrendered.

Lucky does not like to be kenneled, will break out. If left in a room alone he would eat at the side of the door to get to people. If Lucky was left free in the home he was fine if he was left alone. If he becomes at risk for euth owner still would like to be contacted. OK for behavior eval prior to deciding dispo. [REDACTED]

***Any evaluations, assessments, or staff observations will print below.***

Eval date 04/26/2022 Eval type INTAKE ASSESSMENT

very reactive and anxious in the lobby towards other dogs. Soft wiggly body took treats from staff knows sit, allowed all handling and vaccination, walked to kennel winning and pulling towards other dogs to kennel

Eval date 04/28/2022 Eval type EVALUATION

Canine came forward in kennel with wagging tail, allowed leashing; easy leash and pull. Canine walked well out of the building. Canine explored yard with wagging tail; sat for treats; came to handlers frequently. Canine allowed petting, at first with wagging tail, then tail stiffened as petting continued. Canine would explore off and on, jumped onto chair next to handler; jumped onto handler multiple times for attention. Canine walked well back to kennel and returned without issue.

Adding 2nd attempt based on canine's owner surrender notes.

Eval date 04/29/2022 Eval type EVALUATION

Canine had soft wiggly body in kennel when handler approached; easy leash and pull; walked readily to play yard. Canine came to handler immediately with wagging tail and allowed all petting. Canine jumped onto handler multiple times for attention; continued to allow petting; demonstrated "sit" and "shake." Handler walked canine around shelter; canine began to pull towards other dogs and began to high pitch whine. Canine was easy to continue on walk but pulled harder on leash around other dogs with piloerection and it was difficult to break canine's attention. Handler brought canine to A yard to help settle and provided treats; walked back to kennel with same pull and reactivity. Canine was returned without issue to kennel.

Eval date 05/08/2022 Eval type WALK

per vol: At front of kennel, excited, wiggly bodied. Handler got dog to sit using a treat. Easy leash placement and fast exit from kennel to door. Pulled towards outside kennels strongly. Handler used secondary leash to move dog away. Once away from building, took on walk, pulls moderate on leash. Handler placed modified harness and he walks better. At the sight of another dog, he focuses and pulls towards them, vocalizing. Handler able to redirect using secondary lead and treats. Allowed all petting, took treats nicely. Returned to kennel and no issues removing his leash.

Eval date 05/27/2022 Eval type WALK

I went for a walk today

Eval date 06/02/2022 Eval type WALK

## Information for Animal ID # A4728221

Per vol: Dog was easy to leash and pull out of his kennel, walked on loose leash and occasionally pulled slightly to sniff and explore. He did see dogs on the walking trail from a distance, was interested but not reactive. Sat for treats and took them gently, was affiliative and allowed petting all over. Easy return to his kennel.

Please reassess and consider changing Lucky to level 2. Thank you!

Eval date 06/07/2022                      Eval type WALK

I went on a walk today

Eval date 06/14/2022                      Eval type WALK

Per Vol: At front of kennel, sat for leash placement. Easy kennel pull and exit from wing. Took to yard, explored, came when called, sat for treats. Takes treats gently. Handler sat on bench, lucky came and laid at handlers feet. Leaned in for petting all over. He was not interested in toys, but sniffed pool. Took on walk, walks on semi loose leash. Stops when asked, no pulling on leash, except to sniff things of interest. Interested in other dogs while on walk, but no barking or lunging noted. Returned to kennel, entered and easy removal of his leash. Dogs handling on leash are better than previous note by this handler.

Eval date 06/19/2022                      Eval type WALK

Per Vol.-Easy to leash. Exited building immediately Walked with moderate pull. Sits/takes treats gently. Took to play yard when canine explored. Returned to handler for attention. Returned to kennel with no issues.

Eval date 06/28/2022                      Eval type OBSERVATION

Handler noticed volunteer taking dog out for walk, dog was pushing at door to get past.

Eval date 06/28/2022                      Eval type WALK

I went on a walk today

Eval date 07/04/2022                      Eval type WALK

PER VOLUNTEER- Up front wagging on approach. Easy to leash and did not push the gate. Did not pull much on leash and we went to a yard. Ignored other kennels. I sat in yard and he came up and laid next to me, leaning in for pets. He knows shake both paws. Although he is a bit exuberant and throws both paws at you at one time. Jumped politely for attention. Sat when asked. Polite taking treats. Affectionate and sweet. Very much a level 2 or less today and very easy! No issues returning to kennel. My fav of the day!

Eval date 07/12/2022                      Eval type WALK

I went for a walk

Eval date 07/22/2022                      Eval type WALK

I went on a walk today

Eval date 08/03/2022                      Eval type EVALUATION

Closed to outside for morning cleaning; rose and came forward when handler approached and engaged. Easy to leash and remove; walked well on the leash. Take to close by yard; leash dropped initially then fully removed. Explored the yard; engaged handlers when solicited. Attempted to jump up on handlers legs but was easy to redirect. Allowed petting along entire body, responded to sit, paw and lay down when queued. Returned to kennel without issue.

Eval date 08/19/2022                      Eval type WALK

I went on a walk today

Eval date 08/25/2022                      Eval type WALK

# Information for Animal ID # A4728221

PER VOLUNTEER

I stood in front of his kennel and he wagged tail happily. Very excited to get out. Took multiple treats. Easy leashing. Explored outside, went potty almost as soon as we entered PY and I feel confident saying that he is potty trained. Sat for treats when I said "sit," but also sat when I looked like I was about to take out a treat. Chose to come to me several times on his own and received affection happily. While I was petting him he sat down so he could rest while I continued. Rolled onto back for belly rubs. Easy return to his building. Ignored other dogs and went into his kennel very nicely.

Eval date 09/01/2022 Eval type WALK

Per vol:

Easy pull and return. No aggression. While walking past yard, dog in yard approached. This dog sniffed and touched noses with dog in the yard.

Eval date 09/14/2022 Eval type OBSERVATION

Allowed leash placement and give Provecta Advanced for Dogs by weight applied topically.a.pettus

Eval date 09/18/2022 Eval type WALK

PER VOLUNTEER

Easy to pull, no aggression, doesn't even pull on leash. Explores the yard, lays in the pool

Eval date 09/25/2022 Eval type OBSERVATION

curled up in ball on bed, head facing guillotine door.

Eval date 09/22/2022 Eval type WALK

PER VOLUNTEER

Lucky was so happy as I prepared to take him out. Tail wagged madly. He didn't avoid leash but was dancing around so excitedly that it took a few extra moments to leash him. His kennel was second from the exit door and we hurried out, passing only the 2 dogs in the corner kennel. He seemed to be totally unfazed by all the barking. I'm pretty certain he is potty trained.

Explored the PY but came to me when I called him. Sniffed around but frequently stayed near to me, wanting more treats. Never jumped on me nor did he grab from my hand. Took treats nicely and knows "sit." He would also sit when I petted him, and roll over for belly rubs. We went into volunteer room for better treats. The moment there was a biscuit in my hand, he sat. He even sat when he only anticipated a treat. We walked back to his kennel and he knew there was a treat in my hand. He kept turning toward me, wanting to have it. He went back into his kennel very nicely when I tossed the treat into it. Wagged his tail as he was eating it.

Eval date 10/01/2022 Eval type WALK

PER VOLUNTEER

Lion greeted me at the front of his kennel with a soft body and demeanor. His pull and return were easy and polite. He showed no interest in the barking dogs exiting or returning. He went potty immediately leaving the building. He seemed to be house trained. We enjoyed a long walk together, he walked by my side when he wasn't exploring and sniffing. In the play yard, he enjoyed pets each time he came to check in with me. Lion was easy-going, calm and polite with his interactions with me. He was an easy boy to spend time with.

Eval date 09/08/2022 Eval type WALK

I went for a walk today.

Eval date 09/15/2022 Eval type WALK

I went on a walk today.

Eval date 10/09/2022 Eval type WALK

# Information for Animal ID # A4728221

## PER VOLUNTEER

He took hot dogs very nicely, when coming out of the kennel he was excited to get out, did not get irritated with the other dogs.

He would sit with a little bit of persuasion with hot dogs, indicating a training was started and could be picked right up. Was able to go poop and pee both. Not interested in the pool of water today, he did search the yard, and up to the fence for every new person with tail wagging. Was easy to call him by his name and he followed around the yard to get movement. He seen the tennis ball but did not seem to want it, came up to me several times for attention. Return was very successful. He seemed excited to see the return person, and went into his kennel very easily. Though the day every time walked past the kennel he looked up and wagged his tail in acknowledgement.

Eval date 10/14/2022                      Eval type WALK

Dog was excited to see handler when handler walked up to life room door. Easy leashing and walked with a slight pull to yard. in yard, dog seeked attention and leaned into all petting. Dog roamed play yard but would come seek attention from handler every now and than. Easy return and easy leash removal.

Eval date 10/10/2022                      Eval type WALK

I went on a walk today

Eval date 10/19/2022                      Eval type WALK

Canine was leashed with no issue at all and walked with moderate pull needing slight leash pressure. Canine was eager to get to yard and went straight in and started sniffing away. Canine constantly came to handler to seek attention. Allowed pets from all over body and maintained loose wiggly body. Canine leashed easily and walked back with moderate pulling. Canine went back to room and immediately started eating.

Eval date 10/19/2022                      Eval type OBSERVATION

Handler took dog to yard for a break. Dog is a little bit of a puller. In yard dog seems to be housebroken.. He was playful in the yard. He seems to know sit.

Eval date 10/22/2022                      Eval type WALK

Pulled dog for PM spot-cleaning. Dog was sitting nicely at the room door; allowed easy leash placement while sitting, and walked out of room nicely. No fence-fighting with adjacent dogs in K-wing. Dog walked very nicely on the leash, appears to be fully leash-trained. When in yard, dog was incredibly engaged, affiliative, affectionate, and receptive to handler communication & guidance; Dog demonstrated "sit", "Down", and "wait". Dog spent most of his time relaxing/sitting/laying down at handler's feet. Dog allowed easy leash placement, and walked nicely back to kennel. Re-kenned easily, allowed easy leash removal, and did not attempt to door-dash. Overall very pleasant, friendly dog.
