Canine Distemper Virus RealPCR a POSITIVE
CDV Quantity b 8 THOUS/SWAB
Fold Difference From Cutoff 0.08
LOW CDV POSITIVE

CDV viral load is low, which is possible with early infection, resolving infection, or vaccine interference. If the dog has been vaccinated with a modified-live CDV strain within the past 2 weeks, the positive CDV result may be due to detection of the vaccine strain. If the dog has not been vaccinated recently or received the recombinant CDV vaccine, the positive CDV result is consistent with the early or recovery phases of a wild-type infection, particularly if there is known exposure or compatible clinical signs; re-testing in 7-10 days is recommended.

Eval date 06/13/2022 Eval type OBSERVATION

Soft, wiggly body, tail wagging, walked up to officer, allowed all handling, does not walk on leash, pulls on leash(Tries to get out of leash).

Eval date 06/13/2022 Eval type INTAKE ASSESSMENT

Muzzelwrapped adn lifted off truck, soft body, low tail wags. Allowed all handling. Nervous on leash, bucketed to kennel

Eval date 06/15/2022 Eval type EVALUATION

Handler approached front of kennel and dog ran out to the back; once dog was closed out, handler approached and dog lowered head and had a light tail wag; easily leashed; once leashed walked out of kennel slowly, carried body low, but continued walking; one out of wing dog softened and walked alongside handler to yard; explored and urinated/ defecated immediately; solicited pets from handler and remained soft throughout interaction; male employee approached yard and dog became alert, hackles rode slightly, emitted a brief "huff"; employee crouched down and talked quietly to dog and dog approached him with a very wiggly soft body; easily leashed to walk back to kennel; handler had to step in and have dog follow

Eval date 06/19/2022 Eval type WALK

per vol - Easy kennel pull, slight pull on the leash, affiliative, takes treats gently, was fixated on other dogs in play yard and whiny, easy kennel return

Eval date 06/30/2022 Eval type WALK

out for a walk

Eval date 06/30/2022 Eval type WALK

per vol - Lil'Boy Blue was napping when I approached, but got up readily and was cooperative w. the slip lead. On our arrival at the play yards he glanced at another dog thru the fence & sniffed calmly before exiting the interaction. Later when he spotted another dog in a play yard next to ours he trilled like a bird & pulled slightly. He didn't seem to have ok much interest in toys but enjoyed pets.

Eval date 07/17/2022 Eval type WALK

Dog retreated from handler on approach, was able to coax forward. Pulled on leash to yard. Very relaxed in yard, soft body, mouth open, ears forward. In sight of other dogs, dog was fixated, mouth closed, body tense. Had to coax back into kennel, didn't want to go back.

Eval date 07/08/2022 Eval type WALK

per vol - Pushed at the corner of kennel when leashing once leashed darted out and pulled down wing stopped once with the dogs barking but then continued. Once out he walks close and stops and goes will get between your legs. Did not sit but took treats nicely, allows petting did fine when a bike passed. Did better going back walked in kennel.

Information for Animal ID # A4746036

Eval date 07/23/2022 Eval type WALK

Per vol -Pulled from back. Wanted to push out. Once leashed, ran down wing and pulled a bit on walk. High pitch bark at other dog walking by. Would walk in between my legs at times on walk. We jogged together, he is a great jogger and doesn't pull. Allowed pets. No issues removing leash or returning to kennel.

Eval date 07/29/2022 Eval type OBSERVATION

k9 had bed flipped up inside of kennel

Eval date 08/03/2022 Eval type WALK

OUT OF KENNEL FOR A WALK - canine sat while handler approached once opening kennel canine tried to push kennel door open with head. able to over head leash, then bolted out of the kennel handler was able to control. canine wanted to visit every kennel on the way out of the wing, once at door handler controled canine and did not allow for canine to exit right away, let visitors pass after shutting door then proceeded to yard. canine has alot of engery, once in yard we explored and walked on leash some in yard, then let go of leash. canine did not want to do anything but listen to all of the dogs indoors. canine tried to push way out under gate. canine did not want to play ball, when heading back in canine pulled in a galloping motion back inside once in kennel able to unleash with ease.

Eval date 08/09/2022 Eval type WALK

Per volunteer: Pup was eager to get out with a wiggly body and tail wagging. He pushed through the door but I was able to grab and leash him. He pulled hard to exit the building and then settled, walking by my side and some zig-zagging in front of me. He was yelping and pulled hard toward other dogs along our walk. Was an easy return

Eval date 07/29/2022 Eval type WALK

Per vol: Pushed hard at kennel door when leashing once leashed pulls down the wing. Once out of shelter placed modified harness sits for treats but will jump up wanting treats at times. Leans into you at times when walking allows pets did give a bath . Fence fought back to kennel easy to unleash.

Eval date 08/25/2022 Eval type WALK

Out for meet and greet

Eval date 09/02/2022 Eval type OBSERVATION

Dog went to the outside kennel as soon as staff approached the inside door . Dog pushed itself againts the outside door for as long as the staff remained at the inside door .

Eval date 09/01/2022 Eval type WALK

Per volunteer - Pushed to exit kennel and through the door. I was able to grab and leash. He Pulled toward exit slight interest in other dogs as we were exiting. Went on a walk and sat under a tree he pulled on and off moderately what was very sweet, enjoyed pets it's and being close. Easy kennel return

Eval date 09/06/2022 Eval type WALK

out for a walk

Eval date 09/13/2022 Eval type EVALUATION

Came to back of kennel on approach, relaxed body language. Began to push at door with head when handler presented leash; handler held door mostly closed using foot in order to leash. Once leashed, darted out of kennel, pulled hard to yard. In yard, explored, allowed handling all over. Took treats gently. Pulled hard back to kennel. Fence fought in wing, so handler kept short leash. Once at kennel, dog became fixated on fence fighting dog in kennel next to his - handler used firm leash pressure to guide into kennel. Easy leash removal.

Eval date 09/13/2022 Eval type WALK

out for a walk

Information for Animal ID # A4746036

Eval date 09/26/2022 Eval type WALK

Per volunteer - "Blue" appeared friendly at the rear of his kennel. He pushed out of the kennel with his head as I tried to open it enough to reach in. I was able to place the leash over his head as he came out of the kennel. He pulled strongly to the exit jumping up on the door and continued to pull strongly to the play yard. He displayed an affectionate behavior; giving kisses, enjoying being petted, putting front paws in my lap and asking for body scratches. When he was not wanting my attention, he hung out by the gate appearing to want out. We went for a walk around the shelter building, he still pulled strongly. He continued to pull strongly in the wing and fence fought on the way to his kennel. He was slightly difficult to put back in his kennel. I had to redirect him away from his neighbor and push him in. Once in his kennel, he was easy to unleash.

Eval date 10/03/2022 Eval type OBSERVATION
