

Information for Animal ID # A4754318

Animal ID #: A4754318 **Species:** DOG **Sex:** Neutered Male **Age:** 2 Yrs. Months
Name: AUSTIN **Breed:** Primary- AM PIT BULL TER Secondary- MIX
Color: Primary- BLACK Secondary-

If animal has been impounded, kennel intake and outcome information will be printed below.

Kennel #: E210 **Status:** WAIT RELS **Intake Type:** STRAY **Intake Subtype:** OTC
Location Impounded/Found: [REDACTED] **City:** [REDACTED]
Intake Date: 7/1/22 **Intake Time:** 12:04 pm **Release Date:** 7/4/22
Outcome Type: EUTH **Outcome Subtype:** DIS-MED **Condition:** \$25
Outcome Date: 11/4/22 **Outcome Time:** 5:35 pm

Below is the information on the person that called about or brought in the animal.

Person ID #: [REDACTED] **Name:** [REDACTED] [REDACTED]
Address: [REDACTED] [REDACTED] [REDACTED] **Apt/Space:** [REDACTED]
City: [REDACTED] **State:** [REDACTED] **Zip Code:** [REDACTED] **Phone:** [REDACTED] [REDACTED]

If the animal was adopted, returned or sent to a New Hope group, the information will print below.

Person ID #: **Name:**
Address: **Apt/Space:**
City: **State:** **Zip Code:** **Phone:**

If the animal is licensed, tag and vaccination information will print below.

Tag Number: NO CURRENT TAG **Vacc Date:** 8/1/2022 12:00:00AM **Vacc Exp Date:** 8/1/2023 12:00:00AM

Any medical information, treatments or medication will print below.

M22-588911 A4754318 7/1/2022 INTAKE

How long have you had the animal? Today

Has the animal been around other animals? What kind of animals? How would you describe the interaction with other animals? No

Was the animal around any other people or children? If yes, how would you describe the animals behavior towards other people/children? No

Has the animal shown any aggression around other people? Might want to include a few examples of what aggression looks like. Barking, growling, lunging, etc.? If yes, what were the circumstances? Finder said dog barked at people who passed by the car.

Did you keep the animal inside or outside? Inside the car only.

If inside, did you keep the animal in a crate or allowed to roam? Was the animal destructive in any way? N/A

If outside, what kind of fencing do you have and did it contain the animal? N/A

Did the animal show any aggression, like ****growling, curling their lips, lunging**** around food, toys, or bones? No

Has the animal shown any signs of illness? No

Does the animal walk on a leash? N/A

FINDER STATED HE FOUND ON THE SIDE OF THE ROAD AND DID NOT WANT TO DIE FROM HEAT EXHAUSTION. MOTHER AND 4 KITTENS WERE BOUGHT IN CARRIER.

M22-622508 A4754318 11/5/2022 E DOCS

Purpose: To verify all available data is reviewed and standardized processes are followed before an animal is euthanized.

Procedure: This form is to be completed by the medical team to verify and collect critical medical data.

CLINIC PROTOCOLS FOR IRREMEADIABLY SUFFERING ANIMALS 11/04/22

Animals that are suffering and actively dying (e.g. agonal/comatose) may be euthanized immediately upon receiving approval from

two veterinarians. Checklist to be completed following the procedure, with explanation.

Veterinarian 1: [REDACTED], DVM

Veterinarian 2: [REDACTED], DVM

Explanation: Highly likely CDV + (CDV Cq value 32.64) per UC Davis DVM.

Urgent Medical Issues: Confirm each item with (Y/N/NA) before proceeding: 11/04/22

Seizures: n Uncontrollable Pain: n Difficulty Breathing: n Active and/or Uncontrollable Hemorrhaging: n Lack of Deep Pain: n Other: Highly likely CDV +; HPTD to prevent suffering from highly contagious and possibly fatal disease.

Other Medical Considerations Confirm each item with (Y/N/NA) before proceeding: 11/04/22

Needing intervention and rehab consideration, long term care: y

Established Prognosis: y

Have time and resources to treat: n

Have room and resources for follow up care: n

Dog is candidate for foster: n

Information for Animal ID # A4754318

Rescue or NH will take once stable: na
Outside funding Available: Details: na

Any evaluations, assessments, or staff observations will print below.

Eval date 07/03/2022 Eval type EVALUATION

Locked to back for am cleaning; laying on floor against wall; dog slowly moved backward when handler approached; as handler opened gate and presented leash dog began low growling; handler knelt and tossed treat which dog did not eat; dog continued to move backward and curled into self; handler left treats and exited.

Eval date 07/01/2022 Eval type INTAKE ASSESSMENT

dog was brought onto ramp on leash by owner, barking, stiff body, switched to snare, allowed attention, vaccinated with snare restraint, walked to kennel on snare

Eval date 07/05/2022 Eval type EVALUATION

Sitting in back of kennel on handler approach. Slowly came forward for treats, handler presented leash and dog retreated. After a few minutes of taking treats from handler, handler used treats as a distraction to place the leash. Once leash was placed dog exited kennel and slowly walked to play yard on leash. Explored play yard. After some time dog solicited attention from handler, laid his head in handler's lap for pets. Allowed petting on head and body. Demonstrated "sit" and "shake" for treat and took treats gently. Played fetch in the yard with a rope toy. Allowed leash placement and walked back to kennel on leash. Easy kennel return.

Eval date 07/15/2022 Eval type WALK

I went for a walk today

Eval date 07/24/2022 Eval type WALK

I went for a walk today

Eval date 07/30/2022 Eval type OBSERVATION

Barking/leaping in kennel

Eval date 08/03/2022 Eval type WALK

per volunteer

At front of kennel when unfamiliar handler approached. Sat for leash placement. easy kennel pull. Strong pull on leash to yard. Once in yard, explored, briefly chased a toy thrown by handler. Sat for treats, takes them nicely. Demonstrated "sit". Distracted by another dog that entered adjacent yard. Followed dog along fence line, stiffened, high tail, barked. Handler able to briefly distract with treats. Ran through muddy water, focused on other dog again, same behavior at fence line. Allowed petting of head and backside. Took on walk, walks on leash, pulls towards other dogs, barks and stiffened. Distracted with "leave it" command and treats. Returned to kennel and no issue removing his leash.

Eval date 08/07/2022 Eval type WALK

Per Vol: Austin's pull was excited but manageable and his return was easy. He went potty immediately leaving the building. He seemed to be house trained. He settled into a very nice walking pace pretty quickly. He really enjoyed exploring and sniffing along our walk. He didn't show any reaction to a passing dog along our walk. In the play yard, he engaged me in a game of fetch by bringing me a ball and dropping it in my lap or at my feet and stepping back to wait for me to throw it each time. Austin was such fun, happy boy. His interactions with me were polite and gentle. He leaned in for all of his pets and was such a good boy!

Eval date 08/26/2022 Eval type WALK

Out for a walk today.

Eval date 09/01/2022 Eval type WALK

Information for Animal ID # A4754318

per volunteer- At front of kennel on approach; dog sat and patiently waited for leash placement; pulled a little to yard; once in yard dog explored and played catch with handler; solicited attention from handler and allowed petting all over; easy least placement; pulled lightly back to kennel; entered kennel with no issues; allowed leash removal

Eval date 09/09/2022 Eval type WALK

I went on a walk today.

Eval date 09/30/2022 Eval type WALK

I went on a walk today

Eval date 10/07/2022 Eval type WALK

I went on a walk today!

Eval date 10/14/2022 Eval type WALK

\Pulled for PM walk. Easy kennel pull, dog walked nicely to yard with minimal pulling; pulling appeared to increase when dogs would become reactive toward him. Dog responded very well to mild leash corrections during these moments. Dog was pulled into the A-yard, next to another long-timer dog, Tonka, and both dogs were able to peacefully co-exist in adjacent yards with minimal reactivity/escalation. This dog was engaged in fetch for a while with a tennis ball & a tough roller toy, but eventually lost interest and became aloof; sniffing around and checking in occasionally with neighbor dog in yard . Dog collected easily, allowed easy leash placement, and excitedly pulled on the way back to his kennel. Very easy re-kennel; dog has been learning the "Kennel" command, and seems to respond very well to certain handlers.

Eval date 10/18/2022 Eval type WALK

Took Austin out for a PM walk & yard time. Dog has been learning to walk calmly on lead while managing distractions and drive. Dog has been making progress when lead by a calm, confident handler who guides him and re-directs him regularly. After a 10 minute walk, took dog into large play yard for fetch time; Austin loved playing fetch. The dog obeyed the rules of the game, and knows to not rush the handler for the toy. Instead, he should sit, and wait for handler to start the game; dog does know to bring the toy back and drop/leave it for handler to re-collect. Very toy-driven, but no unhealthy behaviors were witnessed.

Eval date 10/21/2022 Eval type WALK

Took dog out for a PM walk. Dog did very well today; it appears that regular work/activity is satiating this dog. Dog pulled significantly less today than 2 days ago during walk. Virtually no reactivity observed; slight whines/whimpers when dogs would over-react to us on return. Dog has been learning the "kennel" command, successfully; when approaching kennel, dog rests in front of kennel gate, and will enter without rebuttal when handler states "Kennel". Dog has also been learning "fetch" & adjacent commands; "Drop", and "Leave it". Overall responding very well to training/guidance from experienced handler.
