Purpose: To verify all available data is reviewed and standardized processes are followed before an animal is euthanized.

Procedure: This form is to be completed by the medical team to verify and collect critical medical data.

# Information for Animal ID # A4755967

CLINIC PROTOCOLS FOR IRREMEADIABLY SUFFERING ANIMALS 11/04/22

Animals that are suffering and actively dying (e.g. agonal/comatose) may be euthanized immediately upon receiving approval from two veterinarians. Checklist to be completed following the procedure, with explanation.

Veterinarian 1: [REDACTED], DVM

Veterinarian 2: [REDACTED], DVM

Explanation: Highly likely CDV + (CDV Cq value 32.11) with active clinical signs.

Urgent Medical Issues: Confirm each item with (Y/N/NA) before proceeding: 11/04/22

Seizures: n Uncontrollable Pain: n Difficulty Breathing: y Active and/or Uncontrollable Hemorrhaging: n Lack of Deep Pain: n Other: Highly likely CDV + with active clinical signs; HPTD to prevent suffering from highly contagious and possibly fatal disease.

Other Medical Considerations Confirm each item with (Y/N/NA) before proceeding: 11/04/22

Needing intervention and rehab consideration, long term care: y

Established Prognosis: y

Have time and resources to treat: n

Have room and resources for follow up care: n

Dog is candidate for foster: n

Rescue or NH will take once stable: na

Outside funding Available: Details: na

Eval date 07/09/2022 Eval type INTAKE ASSESSMENT

dog does not walk on leash, cart used to bring dog to ramp, do had low stiff body, allowed all vaccines with light restraint, moved to kennel in cart without issue

Eval date 07/11/2022 Eval type EVALUATION

Approached handler with slightly tense body and low wagging tail; retreated when leash was presented; avoidant of leash; handler knelt and dog army crawled forward with low tail wags; allowed slow petting; handler able to place leash while petting; dog slowly exited kennel; began walking toward exit door; in doorway dog panicked; pulled back on leash and began darting in multiple different directions; army crawled up against multiple kennel gates; dogs in those kennels were barking and this dog was jumping with each bark; handler used leash pressure to direct dog back to kennel; dog darted in; handler opened guillotine door and dog exited to outside; closed to back and brought transport cart; handler placed cart in front of dog and dog slowly entered with coaxing; rode well to yard; in yard dog slowly explored; remained timid but was affiliative; army crawled to handler and allowed all petting; slowly grew more comfortable with handler; entered cart with coaxing; rode well to kennel; entered kennel and allowed leash removal without issue.

Eval date 07/16/2022 Eval type WALK

Retreated to back of kennel when handler approached; avoidant of leash; pushed on guillotine door; handler knelt and dog slowly crawled forward; gave handler loose tail wags; leaned into petting of head; handler was able to place leash while petting; attempted to coax to walk; dog slowly began walking; leaned up against kennel gate; froze outside of reactive dogs kennel and would not continue; handler pulled transport cart closer and tipped it; dog entered on own; rode well to yard; in yard dog pottied and explored; anxious and paced yard; entered bucket on own; rode well back to kennel; allowed petting while in bucket; reluctant to enter but did so with time; easy leash removal.

Eval date 07/23/2022 Eval type WALK

Retreated to back; avoidant of leash; once leashed dog walked toward kennel exit; entered transport cart on own; in yard dog explored and pottied; avoidant of handler; tucked tail when handler called to dog or attempted to interact; handler was able to approach dog and pet; dog skin crawled and tail remained tightly tucked; entered transport cart with coaxing; rode well back to kennel; would not exit cart until handler entered kennel and lifted guillotine; dog darted to inside portion of kennel and would not approach so handler could remove leash; pulled guillotine closed; approached from inside; dog was avoidant but handler was able to remove leash; dog froze while handler was removing it.

Eval date 07/23/2022 Eval type OBSERVATION

# Information for Animal ID # A4755967

Stiff body sitting in back of kennel, lip licking hard star at staff unable to do DA2PP booster

Eval date 08/18/2022 Eval type INTAKE ASSESSMENT

Allowed all handling and vaccinations, minimal restraint required, walked to kennel

Eval date 08/19/2022 Eval type EVALUATION

At front of kennel. Took treats gently through door, then retreated. Nervous, wide eyed, lip licking, ears back. Handler gently lassoed dog. Dog exited kennel, walked well on leash. Explored yard. Approached handler and allowed pets. Nervous in yard, lip licking, but allowed petting. Stopped at building entrance, overwhelmed with barking dogs, thrashed briefly when handler applied leash pressure to enter. Handler paused and applied clip leash. Dog then walked with handler into building. Entered kennel. Handler stepped in and removed leash without using clip leash.

Eval date 08/21/2022 Eval type OBSERVATION

Standing on bed at the back of the kennel. Would not approach with verbal coaxing.

Eval date 08/22/2022 Eval type WALK

Handler leashed when stepping into kennel, dog was lip licking, but did come forward with handler, walked to yard, tail tucked, allowed leash removal with hand, explored yard, did not engage with handler, handler used catch pen to lasso dog, dog darted leash, once leashed dog walked to door of building, but then handler had to reassure dog, handler was able to touch her and wiped her eyes, dog followed handler into building and into kennel, no issue removing leash with hand.

Eval date 08/28/2022 Eval type WALK

Dog was wiggly upon approach, although handler still had to step into kennel to leash, walked behind handler to yard, allowed leash removal, friendly with dog facing yard, displayed play behaviors, high fanning tail, high alert ears, touching noses, whimpering, used catch pen to lasso dog, handler had to apply pressure to walk back into kennel.

Eval date 08/22/2022 Eval type WALK

PER VOLUNTEER

Approached kennel, was relaxed and a little shy. After a few mins of gentle talking, Easy kennel pull and no pull leash through kennel area. In play yard, explored area with soft body and tail tucked down. When another dog came into view she became a little more relaxed with handler. No pull on leash back through kennel area was easy return to kennel.

Eval date 09/06/2022 Eval type WALK

Handler had to step in to leash, dog came out with handler, walked quickly through the building, allowed leash removal in yard, briefly explored yard, allowed pets, allowed leash placement, walked to building, handler kept quickly walking through building to kennel, dog did not sit or thrash around, went right into kennel without issue.

Eval date 09/10/2022 Eval type WALK

meet and greet

canine was easy to leash with moderate pulling to play yard. canine explored yard, and did not seem to care for the gentleman. barked at gentleman when he had his hat on. canine was wary about going up to potential adopters but after a bit, solicited attention then went to do her own thing. easy to leash and return to kennel.

Eval date 09/18/2022 Eval type OBSERVATION

give Provecta Advanced for Dogs by weight applied topically. in kennel [REDACTED]

Eval date 09/27/2022 Eval type WALK

Easy catch from kennel. Walks well on leash. Played in play yard and ran laps. Easy to leash again. Walked well on leash. Easy return to kennel and easy to unleash.

Eval date 10/02/2022 Eval type WALK

# Information for Animal ID # A4755967

greeted handler at kennel door, stretched out on door, licking handler's hand. easy leash walked to yard, allowed leash removal, explored yard, came and sought attention from handler, tried to climb into handler's lap. displayed zoomies when handler would play. easy kennel return.

Eval date 10/04/2022                      Eval type WALK

easy leash, low walk to ground, easy leash removal in yard, explored yard, came when called, easy leash, return to new kennel.

Eval date 09/27/2022                      Eval type WALK

I went for a walk today.

Eval date 10/08/2022                      Eval type OBSERVATION

canine took treats from handler with a soft wiggly body.

Eval date 10/12/2022                      Eval type WALK

per volunteer- Approached kennel and was shy and barking toward handler. Would come up to fence to take treats directly from handler and after a few minutes became more relaxed and once tail started to wag, was able to leash. No pull on leash through kennel area. In play yard, explored area with semi-rigid body and tail tucked down. Would not take treats directly from handler in play yard. After several mins of exploring area, did approach handler and sat down next to him wanting to be pet. No pull on leash back through kennel area was easy return to kennel.
