

Approvals

APPROVAL BY CHIEF ENGINEER AND GENERAL MANAGER

The Drainage Design Manual for Maricopa County – Erosion Control is hereby approved and accepted for use within Maricopa County, AZ as best available technical information. This manual has been submitted to various Flood Control District of Maricopa County (FCDMC) staff, other agencies, consultants and the Public for technical review. Review comments have been addressed and the document is hereby incorporated into FCDMC and County Policy. The Erosion Control manual is only available in digital format and can be found on the FCDMC public web site at:

<http://www.fcd.maricopa.gov/Pub/manuals/erosionControl.aspx>

Refer to the Revisions section of the manual for a history of the changes made.

The objective of the Drainage Design Manual, Erosion Control, is to provide guidance to agencies, municipalities, developers, property owners, engineers, contractors and others involved with construction events as a means to comply with the Arizona Pollutant Discharge Elimination System (AZPDES) -- or the National Pollutant Discharge Elimination System (NPDES) when seeking permit coverage within Tribal Lands – storm water permitting process for construction activities. Specifically, this document provides guidance on how to comply with the AZPDES (and NPDES) General Permit for discharges from regulated construction activities.

This document is only advisory and, in conformance with A.R.S. 48-3641.6, is intended to inform the general public of the Flood Control District of Maricopa County’s current approach or opinion to the requirements of the various federal, state and county floodplain and drainage related ordinances or regulations, including, where appropriate, the Flood Control District of Maricopa County’s current recommended minimum practice, procedure or method of action based on that approach or opinion. This document is not intended to impose additional requirements or penalties on regulated parties or confidential information. Submissions made using other methodology shall be acceptable to the Flood Control District of Maricopa upon submission of scientific documentation and evidence showing that such methodology yields results that are consistent and in accordance with the requirements of the various ordinances and regulations and specifically of the AZPDES (and NPDES) General Permit for discharges from regulated construction activities. However, the burden of proof is on the applicant and may affect submittal review times.

Approved for use by:

Timothy S. Phillips, P.E.
Chief Engineer and General Manager
Flood Control District of Maricopa County
