BUSINESS TO GOVERNMENT

Our signature matchmaking event is back and promises to be better than ever. Don't miss your chance to meet with decision makers from multiple County departments and Procurement staff all in one place at one time. Make connections that help you grow your business and attend on-site training on How to Do Business With Maricopa County.

Maricopa County spent over \$750 million on goods and services last year. Don't miss your chance to drive some of that spending your way.

Last year 30 departments participated in this showcase event. Meet directly with department representatives who make the buying decisions.

Bring a stack of business cards, a warm handshake and a smile for connections and onsite training. Registration is free.
