MCDPH Definition

As Adopted from the CDC, by the Health Equity Committee

Health Equity is the state in which **everyone has a fair and just opportunity to attain their highest level of health**. Achieving this requires focused and ongoing societal efforts to address historical and contemporary injustices; overcome economic, social, and other obstacles to health and healthcare; and eliminate preventable disparities.

Sense of Belonging

2023 Health Equity Activities

1. Conduct intentional Steering Committee Member Recruitment
2. Use QPM and newsletter as tools for sharing health equity information and the partner work
3. Collect, track and share Community Health Needs Assessment data in a transparent and accountable way to our partners and their communities
4. Build partners capacity through health equity trainings
