

# Download the Clean Air App for iPhone, iPad, and Android

The Clean Air app provides you with real-time air quality information on your smartphone or tablet.

During the winter, when PM<sub>2.5</sub> (smoke) levels are on the rise, the Maricopa County Air Quality Department can issue No Burn Days. Restrictions last for a 24-hour period and include a ban on all wood burning activity, including fireplaces, firepits, and open outdoor fires.

Download the app to get real-time information about air quality in Maricopa County and to find out when there are High Pollution Advisories.

Here are some tips you can follow if a No Burn Day is issued:

- Do not burn wood in your fireplace, outdoor fire pit, or chiminea
- Do not burn manufactured wax or fire logs
- Gas and electric fireplaces can be used during a No Burn Day
