

Is Today a No Burn Day?

When air pollution levels are on the rise and weather conditions create dry, stagnant conditions, the Maricopa County Air Quality Department will issue a **No Burn Day**. Restrictions last for a 24-hour period, starting at midnight, and include a ban on wood burning activity including fireplaces, fire pits, and open outdoor fires. The purpose of the No Burn Day restriction is to avoid adding pollution to our air when the forecast suggests air quality will approach or exceed the federal health standard.

How to Find Out if Today is a No Burn Day

1. VISIT OUR WEBSITE

By visiting Maricopa.gov/AQ, you can easily check the air quality status and learn whether today is a **No Burn Day**.

2. DOWNLOAD THE MOBILE APP

With our **Clean Air app**, you can get real-time Phoenix air quality information and air pollution statistics, including No Burn restrictions, right on your smartphone or tablet.
