

CIGNA Dental Benefit Summary for Employees of Maricopa County

Receiving regular dental care may not only catch minor problems before they become major and expensive to treat - it may even help improve your overall health. Gum disease is increasingly being linked to complications for pre-term birth, heart disease, stroke, diabetes, osteoporosis, and other health issues. That's why this dental plan includes **CIGNA Dental WellnessPlusSM** features. When you or your family members receive any preventive (Class I) care, the benefit level will increase in the following plan year for services in Class II and/or Class III. Each year you or your family members remain enrolled in this plan and continue to receive annual preventive care, the benefit level will **increase** in the following plan year, until it reaches the level outlined below. For each plan year that you **do not** receive preventive care, your benefit level for Class II and/or III services may **decrease** in the following plan year. However, it will not fall below the initial plan year level. Please refer to your plan materials for additional information on this plan feature.
