PURPOSE:

To guide the administration of Ryan White Part A Program's Substance Abuse Services (a core service under the act). The administration of funds must be consistent with Part A client eligibility criteria and the service category definitions established by the Ryan White Part A Program Planning Council.

POLICIES:

- The funds are intended to provide intensive, comprehensive Outpatient or residential Substance Abuse treatment to HIV-infected individuals with histories of substance abuse.
- As per ADHS guidelines A.A.C. Title 9, Chapter 20, professional staff who provides treatment, counseling and support group facilitation will be licensed or supervised by a licensed behavioral health professional.
- All communications made on behalf of the client are to be documented in the client chart and must include a date, time, person(s) spoken with and brief summary of what was communicated in adherence with the client charting definition.
- All activities performed must be directly related to the HIV-related clinical status of an eligible client and documented appropriately in the client chart.
- All fee- for- service reimbursements made under this service are limited to the current Arizona Health Care Cost Containment System (AHCCCS) reimbursement rates, as applicable, or a reasonable rate approved by the Administrative Agency. Contractors with direct cost reimbursement contracts will be reimbursed for actual/allowable costs incurred during the contract period.
- All groups under this service category must be approved by the Administrative Agent before billing and reimbursement are allowable.
- All direct service providers must meet the service category's Standards of Care as defined by the Ryan White Part A Planning Council.
- For contracts who fund salaries, the program should document at least 50% of allocated staff time with billed client units. Costs per client and costs per units should be reasonable when compared to EMA annual averages.
